1. The first part of the paper is devoted to a general discussion of the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$ . It is shown that the system has solutions for arbitrary values of the parameters  $\alpha$  and  $\beta$  if and only if the condition  $\alpha + \beta = 1$  is satisfied.

2. In the second part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved. It is shown that the system has solutions for arbitrary values of the parameters  $\alpha$  and  $\beta$  if and only if the condition  $\alpha + \beta = 1$  is satisfied.

3. In the third part of the paper the problem of the existence of solutions of the system of equations (1) for arbitrary values of the parameters  $\alpha$  and  $\beta$  is solved. ## PREFACE

This volume grew out of a portion of my 1990 Columbia doctoral dissertation, an iconographic and prosopographic study of sealed archival tablets from Hellenistic Uruk written under the direction of Professors William W. Hallo, Edith Porada and Mark Van De Mieroop. The object of that study corpus consisted of the fifty-eight published and ninety-four then-known unpublished tablets and unassociated fragments in the Yale Babylonian Collection. Since three of the ten tablets in the Harvard Semitic Museum were known to be duplicates of published Yale tablets, it was decided that I should also include all of the Semitic Museum tablets in my study. In April 1987, with the permission of the then Executive Director of the Semitic Museum, Father Carney Gavin, I photographed and sketched the seal impressions and transliterated the texts. With the permission of Professor William L. Moran, the seal drawings and transliterations were included in my dissertation, although time and circumstances did not permit their collation. For this reason, the Semitic Museum's seal impressions were not included among the illustrated catalogue entries in the revised and updated version of my dissertation published last year in *AUWE* 19.

In February, and again in May, of this year, with the kind permission of Dr. James A. Armstrong, Assistant Curator of the Collections, I was permitted to collate the seal drawings and prepare copies of the cuneiform for publication in the present volume. I wish to express my genuine gratitude to Dr. Armstrong and his staff, especially Ms. Kathryn Slanski, who made my visits to the Museum most pleasant and productive. Permission to publish the tablets and seal impressions was kindly granted by Professor Piotr Steinkeller, Curator of the Tablet Collection. My thanks also to Professor John Huehnergard for his continued support and interest.

Dr. L.T. Doty, University of Missouri, unselfishly provided me with his handcopies of, and permission to cite freely from, the nearly one hundred unpublished Seleucid sealed archival tablets in the Yale Babylonian Collection which will appear, together with several contemporary administrative texts, in a forthcoming volume of the *Yale Oriental Series*. Prof. William W. Hallo, Curator of the Yale Babylonian Collection, kindly permitted me to examine, and cite briefly from, the handcopy by the late Prof. A. Goetze of another forthcoming text, YOS 15 9 (Princeton Theological Seminary 2178), first noted in print by Dr. Doty (1977). Prof. Joachim Oelsner, Friedrich-Schiller-Universität, Jena, generously provided me with a copy of, and permission to cite from, his tally, as of January 1993, of all published and unpublished Hellenistic archival texts from Uruk and Larsa.

My sincerest thanks to Ms. Ann Guinan for suggesting Styx Publications as the appropriate publisher for this volume and to Drs. Geerd Haayer for accepting the project for publication and seeing it through to fruition.

Lastly, I must thank the members of my family, my wife, Catherine M. Herriges, and our sons, Joshua Sean and Jesse Walter, for all of their love, patience, and support which allowed me to take the time to complete an undertaking such as this.

## INTRODUCTION

Sealed archival cuneiform tablets from Hellenistic Uruk first came to light during the excavations carried out by W.K. Loftus at Uruk-Warka during the mid-nineteenth century. Today, the total number of these tablets and unassociated fragments, scattered in collections throughout North America, Europe, and West Asia, from both controlled as well as uncontrolled excavations, stands at some six hundred fifty, of which some three hundred fifty are published.<sup>1</sup>

The ten tablets presented here from the collections of the Harvard Semitic Museum were acquired in 1913 in two lots purchased from Paris dealers by the then Curator, David Gordon Lyon. Eight of these tablets (HSM 913.1.1–8) were purchased from Dumani Frères on 17 March; the remaining two (HSM 913.2.181–82) were part of a second lot containing a total of three hundred five tablets purchased four days later from I.E. Gejou.

The residents of Hellenistic Babylonia could avail themselves of two distinct recording media that could be authenticated by the use of seals. The first, the clay tablet inscribed in cuneiform, was the standard recording medium in Babylonia since the end of the fourth millennium. The second, ink on parchment or papyrus, was available since the late eighth century. During the Hellenistic period, apparently most transactions subject to Seleucid taxation or registration were restricted to parchment or papyrus, whereas the method for recording any other transaction type was at the discretion of the interested parties (Doty 1977, 331–35; cf. Stolper 1994, 340–41).

At Hellenistic Uruk, in those cuneiform transactions requiring sealing, the seals of the relevant parties were usually impressed directly on the tablet's edges.<sup>2</sup> In a practice dating back to the reign of Darius II, the right edge was reserved for those principals to the transaction, men and women, natives and colonists, priests and laity, ceding rights or undertaking obligations; the seals of the exclusively male witnesses appear on the remaining edges.<sup>3</sup> Each impression on the upper, lower, and left edges was captioned above with *un-qa*, or more rarely NA<sub>4</sub>.KIŠIB, and below with the personal name of the seal's owner;<sup>4</sup> the captions on the right edge usually contain additional informa-

<sup>1</sup> For a catalogue of all Hellenistic Uruk archival texts, published as well as unpublished, see Oelsner 1986, 146–62. At least one hundred additional tablets have since been identified in the British Museum (Oelsner, personal communication). The tablets in the Oriental Institute are now published by Weisberg 1991; see additionally Wallenfels 1992.

<sup>2</sup> The only exception on a tablet from Uruk occurs on BRM 2 4 where the captioned seal impression of one of the eighteen witnesses is located in the upper right-hand corner of the tablet's reverse (collated). Tablets from other contemporary Babylonian cities may be sealed on the edges and/or face(s) (see, e.g., CT 49, *passim*).

<sup>3</sup> The only exception to this practice within the present corpus occurs in text I, in which a witness, the last of eleven named, had his seal placed on the right edge, to the right of that of the seller-guarantor.

<sup>4</sup> The terms *unqu* (spelled either *un-qu* or *un-qa*) and NA<sub>4</sub>.KIŠIB were originally used to distinguish between the impressions of metal finger rings and stone stamp or cylinder seals, respectively. In the early Seleucid period at Uruk, these terms came to be used quite indifferently so that a given seal might alternately bear either designation on different tablets (see Wallenfels 1994, 3, and nos. 180, 370, 411, 558, 559, 756). With but a single exception occurring in 122 S.E. (OECT 9 49 R1), NA<sub>4</sub>.KIŠIB fell entirely into disuse at Uruk after 17 S.E. Both terms do occur in tablet captions from other contemporary Babylonian cities (see, e.g.,

## Introduction

tion identifying the specific obligation of each sealer. Within the texts, each sealer's patronymic was given which included the father's name, often grandfather's or even great-grandfather's name, and the name of an eponymous ancestor or an occupational or gentilic designation. Sealed Hellenistic cuneiform tablets are also known from Antioch on the İstar Canal,<sup>5</sup> Babylon, Borsippa, Kiš-Hursagkalama, Kutha, Larsa, and Ur.

Contemporary parchment and papyrus documents were rolled, tied, and enclosed within spherical clay bullae, more or less the size and shape of napkin rings, which bore the seal impressions anonymously on their outer surfaces. The contents of these now lost documents are unknown, except for those few cases where the impressions of inscribed official seals are preserved on the bullae (see Rostovtzeff 1932). Similar clay bullae have also been found at Babylon, Larsa, Nippur, and in especially large numbers at Seleucia on the Tigris. It is assumed that sealing practices analogous to those for the tablets obtained for the bullae.

The impressions on both tablets and bullae from Uruk are predominantly those of small, ten to twenty millimeter long, almond-shaped metal finger rings carved in intaglio, or, less often, those of similarly sized elliptical stone stamp seals with convex sealing surfaces also carved in intaglio. Impressions of flat ring stones also no doubt appear, but in most cases they are not readily distinguishable from those of the more circular metal finger rings. The once characteristic seal types, cylinder seals, stone conoids and pyramidal stamp seals in the East, and scarabs and scaraboids in the West, are now virtually extinct.

The majority of the motifs seen among the finger ring impressions evolved from fifth and fourth century Achaemenid and Graeco-Persian types, most of which have Archaic Greek and/or Neo-Babylonian, Neo-Assyrian, and older Mesopotamian antecedents. A prominent group of new motifs includes the signs of the zodiac, rendered individually and in astrologically significant groupings (Wallenfels 1994, 153–57). Among the gem impressions, the motifs are, by-and-large, of contemporary Hellenistic invention or those which entered the Babylonian repertoire more or less directly from the Classical Greek. Due to the fact that the impressions of both finger rings and gems are often not very clear, they yield more information about subject than about style. The motifs chosen to be represented on a private individual's seal or seals appear to have been largely a matter of personal choice, although as a general rule, "official" motifs, i.e., those depicted on contemporary Seleucid coins or on the seals of Seleucid state officials, were, by sanction or custom, excluded. By far the most popular subjects were the lion, sphinx, winged-bull, and goatfish.

With but a hand-full of exceptions, all seals were individually owned.<sup>6</sup> Seals could be replaced freely, as often or as infrequently as the owner might wish, the replaced seal

CT 49, *passim*), however the paucity of published seal impressions from these cities makes further analysis difficult. Nonetheless, note that all of the impressions on BRM 188 from Kutha, dated 125 S.E., are captioned NA<sub>4</sub>.KIŠIB despite the fact that they all appear to have been made by metal finger rings (see Clay 1912, pls. I-II).

<sup>5</sup> NCBT 1942 (= Doty 1977, 193–94) (19.XII.41 S.E.): the principals, witnesses, and scribe are all known from other contemporary archival texts from Uruk; Antioch on the İstar Canal may either reflect a short-lived Seleucid attempt to rename Uruk (van der Spek 1987, 73), or be the name of an otherwise unknown nearby Seleucid colony (Doty 1977, 195–96; Sherwin-White and Kuhrt 1993, 155).

<sup>6</sup> Within this corpus, just a single seal, no. 56, is known to have changed hands (see additionally, Wallenfels 1994, 144).

## Introduction

apparently being discarded. A number of seals are known to occur on both tablets and bullae;<sup>7</sup> presumably these seals were used on both media by the same sealers (cf. seal no. 56).

The restrictions on the types of transactions permitted to be recorded in cuneiform resulted in a limited number of types of texts of quite stereotyped composition (see Krückmann 1931, Lewenton 1970, Doty 1977). The present corpus contains one slave sale (text I), four sales of urban real estate (texts II, IV, IX, X), two sales of prebendal shares (texts V, VI), a fictitious "gift" of urban real estate and a slave remunerated by the payment of silver (text VIII), and two quitclaims, one pertaining to a sale of urban real estate (text III), the other to a combined sale of prebendal shares, a food allotment, and urban real estate (text VII). Duplicates, none from controlled excavations, are known to five of these texts: four are in the Yale Babylonian Collection (BRM 1 98 = text VII, BRM 2 27 = text III, BRM 2 30 = text IV, MLC 2161 = text X), one is in the Vorderasiatisches Museum, Berlin (VAS 15 32 = text VI).

The tablets are somewhat wider than long, ranging in width from 8.3 to 11.1 cm. The slightly convex edges are some 3.5 to 4.1 cm thick. The text of a typical document begins on the nearly flat obverse and continues, if necessary, on the slightly more convex reverse. Also on the reverse are the full names of the witnesses and a two line subscription placed near the bottom containing the scribe's full name, the name of the city in which the tablet was drawn up (Uruk), the date (month, day, and year of the Seleucid Era), and the name(s) of the reigning king(s). Occasionally lines of text from both the obverse and reverse may wrap around onto the right edge.

The tablets are written in a clear formal cursive script, with noticeable variations among the different scribes' hands. The scribe of text II fairly consistently omitted one or two wedges from certain signs, including KÁM, MU, UN, and ZA. The scribe of text IV greatly exaggerated the lengths of the tails of horizontal and diagonal wedges causing them to underlie one or more succeeding signs. Text X is written in a more vulgar script in which the tails of the normally horizontal wedges are angled diagonally downwards; this script is not, however, as extreme as that seen in many of the contemporary administrative documents.

The texts are composed in the Late Babylonian dialect of Akkadian, which it is generally believed was spoken, if at all, only within priestly scribal circles. This dialect demonstrates the many phonological and morphological changes first seen in Neo-Babylonian, most notably, the loss of final short vowels; these changes are seen to be largely the result of the influence of Aramaic, the vernacular in Babylonia since at least the late eighth century. Given the absence of any definitive treatment of the likely vocalization of Late Babylonian, especially where the loss of the final vowel resulted in a final biconsonantal cluster, normalized Akkadian is treated herein in the admittedly inconsistent manner of previous scholars in the field.<sup>8</sup>

The facts that the contents of the present collection of tablets offer little that is new,

<sup>7</sup> Four seals within the present corpus, nos. 20, 56, 73, and 87 also occur on bullae (all unpublished).

<sup>8</sup> For the treatment of final vowels in Neo-Babylonian, see Hyatt 1941; for a preliminary treatment of final consonants in Late Babylonian, see Weisberg 1967, 106–11. Some of the answers to the questions of pronunciation may lie in the so-called "Graeco-Babyloniaca," Akkadian (and Sumerian) texts rendered in Greek transliteration (see Oelsner 1986, 239–44, to which add S.M. Maul, "Neues zu den 'Graeco-Babyloniaca,'" *Zeitschrift für Assyriologie* 81 [1991], 87–107; and M.J. Geller, "The Last Wedge," *ZA* 87 [1997], 43–95); for a compendium of such transliterations, see Scholz 1978.

## Introduction

are few in number, and that four of them are duplicates to tablets already published elsewhere, do not, however, diminish their significance. On the contrary, since the texts and seal impressions on these tablets are relatively well-preserved, and with duplicates known for fully half of them, this particular corpus provides a convenient means by which to examine these objects for the first time in an integrated manner.

Typically texts and seal impressions are treated exclusively of each other. Among earlier editions of Hellenistic Uruk archival texts, the seal impressions may be utterly ignored, briefly described in one or two words, or selectively photographed or drawn, the latter with various degrees of skill. On the other hand, my own previous comprehensive treatment of the seal impressions on cuneiform tablets in the Yale Babylonian Collection (Wallenfels 1994) suffered from the fact that some two-thirds of the tablets used in that study remain unpublished. It is the aim of this volume to try to provide a standard for future editions of sealed cuneiform tablets.

In that vein, the present volume comprises two interconnected parts: the first contains critical editions of the texts; the second, a *catalogue raisonné* of the seal impressions. The texts are ordered chronologically, as is typical for this genre. For each is offered a hand copy, transliteration, translation, textual notes where warranted, and a commentary treating the occurrences, activities and seals of each person named in the light of some four hundred fifty other contemporary texts. The seal impressions within the seal catalogue are first ordered by their dominant motif, then chronologically, in a manner consistent with previous studies of both Near Eastern and Western glyptic; the major categories include heads and busts, full figured humans, anthropomorphic deities, semi-human and human-headed demons, monstrous animals, natural animals, and miscellany. Included within the entries are measurements, descriptions, and comparanda, as well as data identifying each seal's owner, each occasion of its use, and references to other seals used by each sealer, where known; photographs of the seal impressions (twice life-size) and an interpretive (composite) drawings accompany the entries. In the Index of Personal Names, text citations and, where possible, seal catalogue numbers are provided for each entry.

Several conventions utilized herein require further explanation. The seal locations are designated by a letter T (top edge), B (bottom edge), L (left edge), or R (right edge), and are numbered 1, 2, etc., from left to right, with the tablet edge turned so that the captions, which are always oriented consistently on any given edge, are intelligible (the seal impressions themselves may be rotated in either direction upto one hundred eighty degrees with respect to the captions). In general, Akkadian personal names are normalized in conformity with previously published studies, with certain modifications. The final case-vowel may be omitted; where given, a fossilized final *-u* or *-i* is assumed. The theophoric elements <sup>d</sup>60, <sup>d</sup>INANNA, <sup>d</sup>en-líl were actually rendered <sup>d</sup>+60, <sup>d</sup>+INANNA, <sup>d</sup>+en-líl, respectively, by the scribes; <sup>d</sup>60 is normalized "Anu" regardless of actual grammatical case. The sign groups DUMU šá<sup>m</sup>, DUMUMÍ šá<sup>m</sup>, and DUMUMEŠ šá<sup>m</sup> were usually rendered by the scribes as the complexes DUMU×šá<sup>m</sup>, DUMU×MÍ×šá<sup>m</sup>, and DUMU×MEŠ×šá<sup>m</sup>, respectively. All personal names may be assumed to be masculine unless preceded with <sup>f</sup>, indicative of the cuneiform determinative preceding feminine names. Names written in the form PN—PN<sub>2</sub>, symbolize the formula PN šá šumīšu šanú PN<sub>2</sub>, "PN, whose other name is PN<sub>2</sub>." Certain medial and final C—V signs have been ignored in the normalization when they function, for example, to express unambiguously

## Introduction

the final consonant of the previous V-C or C-V-C sign. Long vowels in normalized Akkadian vocables are marked with a macron to indicate positional length and a circumflex to indicate contracted length. Long vowels in normalized West Semitic vocables represented in cuneiform script are marked with a macron to indicate grammatical length and a circumflex to indicate orthographic length (i.e., where a plene spelling would be expected in the alphabetic script). Greek vocables represented in cuneiform script are transliterated in conformity with the "Notice to Contributors," *Journal of Hellenic Studies* 67 (1947), xix [I.A.(a)], with the addition of a macron to distinguish the long vowels  $\eta$  and  $\omega$  from  $\varepsilon$  and  $o$ , respectively. Lastly, the cuneiform sign, A', is typically employed in Late Babylonian texts as an indication of any long vowel, not of the glottal stop. Since the values  $a_{10}$ ,  $e_7$ ,  $i_{10}$ , and  $u_{12}$  suggested by Hyatt (1941, 55) were not adopted by the standard syllabaries, and in some cases are now used to designate other signs, the A'-sign is transliterated herein, admittedly improperly, by '.

## INVENTORY OF TEXTS

It should be noted that four of the HSM acquisition numbers used herein are at variance with those previously published. It appears that following the baking of the tablets several decades ago, two pairs of numbers were interchanged (HSM 913.1.2/.8 and .4/.6). It is the Museum's wish, with due apologies to all concerned, that the tablets be published here with the acquisition and museum numbers as they appear in the Museum's ledgers.

(1) Nidintu-Anu, son of Tanittu-Anu, descendant of Aḫ-ūtu, of his own free will, has sold one-half, his entire share which is with Nanâ-iddin, his brother, son of Tanit[tu-Anu], which is in Anu-ittannu, the slave, son of Saniqqâ, whose right hand is marked with the name of Anu-bēlšunu, son of Nanâ-iddin, for 2 minas of refin[ed] silver, (5) as the full purchase price to Anu-aḫḫē-iddin, son of Nanâ-iddin, descendant of Aḫ-ūtu, in perpetuity.

## Text I

The money, 2 refined minas, the purchase price of one-half in Anu-ittannu, that slave, Nidintu-Anu, son of Tanittu-Anu, descendant of Aḫ-ūtu, has received from (and) was paid by Anu-aḫḫē-iddin, son of Nanā-iddin, descendant of Aḫ-ūtu. When a claim is brought concerning one-half in Anu-ittannu, that slave, (10) Nidintu-Anu, son of Tanittu-Anu, descendant of Aḫ-ūtu, will clear (it) and will pay Anu-aḫḫē-iddin, son of Nanā-iddin, descendant of Aḫ-ūtu. Nidintu-Anu guarantees in perpetuity that Anu-ittannu, that slave, is not one dedicated to the temple, is not one in the position of *šušānu*, does not have the status of a free person, does not have the status of servant of the king, is not in royal cavalry service, and is not in royal charioteer service, (15) and Nidintu-Anu, son of Tanittu-Anu, descendant of Aḫ-ūtu, guarantees for one hundred days the not fleeing of one-half in Anu-ittannu, that slave.

(17–25) (list of eleven witnesses)

(26) Anu-bēlšunu, the scribe, son of Itti-Anu-nuḫ[š], descendant of Sîn-leqi-unnīni. . .]

## Comments

The corpus of slave sales from Hellenistic Uruk also includes TCL 13 248 (8.II.Alexander III 8), VAS 15 20 (–.II.Philip –), BRM 2 2 (12.V.9 S.E.), MLC 2192 = MLC 2198 (28.XI.12 S.E.), MLC 2194 (28.–.12 S.E.), VAS 15 3 (12.VIII.14 S.E.), VDI 1955/4 139ff. 1 = BaM Beiheft 2 119 + 120 + frag. 27 + 121 (10.VI.15 S.E.), MLC 2184 (16.VIII.16 S.E.), NCBT 1973 (3(+).I.17 S.E.), BRM 2 25 (12.IX.[16–17] S.E.), MLC 2168 = NCBT 1967 (8.II.[8–18] S.E.), NCBT 1966 (–.–.[8–18] S.E.), BRM 2 10 (2.VI.37 S.E.), BiMes 24 39(?) (n.d.), BiMes 24 40 (n.d.). For the standard formulary for the sale of slaves, see Krückmann 1931, 39–41; Petschow 1939, 69–72; Lewenton 1970, 7–14; Doty 1977, 82–83.

Several lines of evidence suggest a date for text I of ca. 12–17 S.E.

(1) No slave sale texts occur in cuneiform after 37 S.E. (Doty 1977, 323; Doty 1979).

(2) Payment was made in *kaspu qalû*, without the following *istaterrānu ša RN (babbanûtu)*, first attested at Uruk,<sup>2</sup> ca. 16–17 S.E. (BRM 2 25), and seen quite regularly thereafter.

(3) The scribe is known from at least five other texts dated between 9 and 16 S.E. (see below).

(4) Witness # 6 used the same seal (no. 6) on at least one other occasion in 15 S.E. (VDI 1955/4 139ff. 1); he had previously used Wallenfels 1994, no. 43, on two different occasions in 12 S.E. (NCBT 1953, MLC 2198).

(5) Witness # 9 used the same seal (no. 42) on at least two other occasions, once in 16 S.E. (MLC 2184), and again, ca. 8–18 S.E. (MLC 2168 = NCBT 1967).

(6) The seal impressions on the upper, lower and left edges are captioned NA<sub>4</sub>.KIŠIB, while those on the right edge are captioned *un-qa*, irrespective of the fact that the preserved impressions on all of the edges appear to have been made by metal finger

<sup>2</sup> Cf. UET 4 43 (Ur: Phillip 7).

rings. This same arrangement occurs on MLC 2654, dated 17 S.E., the latest securely dated Uruk archival text regularly evidencing NA<sub>4</sub>.KIŠIB in its seal captions.<sup>3</sup>

Eleven of the persons named in this transaction also occur in various combinations of from two to four each in eighteen other transactions, of which eleven concern slaves. In addition, five persons, including two of the preceding, occur individually in yet another seventeen transactions, of which three concern slaves.

The seller-guarantor, Nidintu-Anu/Tanittu-Anu/Ah-utu, also witnessed slave sales: in 9 S.E., he and WI # 5 witnessed a transaction recorded by the present scribe in which the wife of WI # 1 purchased three slaves (BRM 2 2) (seal: cf. Wallenfels 1994, nos. 373, 900); in 12 S.E., he and WI # 8 witnessed the sale of three slaves to his brother, the present co-owner (MLC 2194) (seal: cf. Wallenfels 1994, nos. 75, 374); and ca. 8-18 S.E., he and WI # 4 witnessed the sale by WI # 9 of two slaves to his nephews Kidin-Anu and Anu-ab-utēr, sons of Nanâ-iddin, the co-owner of the present slave (MLC 2168 = NCBT 1967) (seal: cf. Wallenfels 1994, nos. 32,<sup>4</sup> 476). Nidintu-Anu, and two of his brothers, Anu-bēlšunu and Anu-zēr-līšer, together with WI # 2, also witnessed the sale of a house in an unknown district, ca. 8-18 S.E. (VAS 15 51), in which their brother, Nanâ-iddin, the present co-owner, was the buyer, and WI # 1 was the seller.

The co-owner, Nanâ-iddin/Tanittu-Anu/Ah-utu, the seller's brother,<sup>5</sup> in the first of two slave sale contracts in 12 S.E., also witnessed by WI # 6, (MLC 2192 = MLC 2198), purchased eight slaves, and in the second (MLC 2194), witnessed by the present seller and WI # 8, purchased three more; he also purchased three slaves in 14 S.E., witnessed by WI # 1 and WI # 5 and recorded by the present scribe (VAS 15 3), six in 15 S.E., witnessed by WI # 2, WI # 5, and WI # 6 and recorded by the present scribe (VDI 1955/4 139ff. 1 = BaM Beiheft 2 119 + 120 + frag. 27 + 121), and one each, ca. 16-17 S.E. (BRM 2 25) and ca. 8-18 S.E. (NCBT 1966), the latter also witnessed by WI # 5. He was the beneficiary in a protocol of a quitclaim concerning several slaves and the original sale documents in or before 35 S.E. (NBC 4880).

Nanâ-iddin leased out a storage facility in the Pleasure Garden district in 8 S.E. (BRM 2 1), and purchased a plot of arable land in or before 17 S.E., witnessed by WI # 4 (YBC 4645), and two houses, ca. 8-18 S.E., one, sold by WI # 1 and witnessed by the present seller and WI # 2, in an unknown district (VAS 15 51), the other in the vicinity of the Lugalgirra Temple (TCL 13 229 = VAT 7845). In 12 S.E., Nanâ-iddin contracted to supply brewing materials in return for a share of the final product: among the witnesses was WI # 6 (NCBT 1953).

<sup>3</sup> Cf. OECT 9 49 (122 S.E.) where only the right edge seal is captioned NA<sub>4</sub>.KIŠIB while the seals on all the remaining edges are captioned *un-qa*.

<sup>4</sup> Wallenfels 1994, no. 32 was also used by Anu-uballit/Šamaš-ittannu/Ah-utu, a co-guarantor to a slave sale 3(+).I.17 S.E. (NCBT 1973); it is one of the very few seals used by more than one individual (see Wallenfels 1994, 144). Anu-uballit also used seal no. 42 at least three times, ca. 8-18 S.E.

<sup>5</sup> The well-documented business activities of Nanâ-iddin, his wife <sup>†</sup>Nanâ-nadinat (also known as <sup>†</sup>Nadâ), three of his brothers, and four generations of their descendants are treated extensively in Doty 1978; included also are editions of the relevant portions of the otherwise unpublished texts MLC 2200 and NCBT 1953. WI # 6, Anu-qīšan, and WI # 7, Anu-išsur, on the basis of their patronymics, also appear to be brothers of Nanâ-iddin (also note Anu-ušallim: NCBT 1960:5-6; VAS 15 3:24).

## Text I

Nanâ-iddin's wife, 'Nanâ-nadinat, also known as 'Nadâ, daughter of Anu-bēlšunu, in her own right, purchased two slaves in 16 S.E., also witnessed by WI # 9 (MLC 2184), and one slave in 17 S.E., purchased from WI # 1 and guaranteed by WI # 9 (NCBT 1973). In 16 S.E., 'Nanâ-nadinat contracted independently for the delivery of dates: the tablet was recorded by the present scribe (MLC 2200).

The buyer, Anu-aḥḥē-iddin/Nanâ-iddin/Aḥ-ūtu, is not known from any other texts. Doty (1978, 71-72) identifies him as a son of Nanâ-iddin, the present co-owner, although he is not specifically so identified within the text.

Anu-bēlšunu/Nanâ-iddin, whose name marked the slave's right hand, was probably the same man, a descendant of Ekur-zakir,<sup>6</sup> three of whose nephews, Anu-ab-ušur, Nanâ-iddin and Riḥāt-Anu, sons of Anu-uballit, were defendants in a suit brought by a fourth nephew, Nanâ-iddin/Anu-zēr-ušabši. This case, concerning the disposition of a slave originally owned by Anu-bēlšunu, was heard before an assembly of freemen in 9 S.E. and was recorded by the present scribe (MLC 2202).<sup>7</sup> Anu-bēlšunu also witnessed the sale of shares of the butcher's prebend in 12 S.E. (VDI 1955/4 152ff. 6) (seal: Sarkisian 1955, fig. 7 [T1]).

Among the witnesses:

# 1, Ana-rabūtika-Anu/Anu-aḥ-ušabši/Aḥ-ūtu, also witnessed the sale of three slaves in 14 S.E. to Nanâ-iddin, the present co-owner, also witnessed by WI # 5 and recorded by the present scribe (VAS 15 3), and, in 26 S.E., he, along with WI # 2, witnessed the sale of a house in the Lugalgirra Temple district adjoining property owned by WI # 6 (NCBT 1960). In 17 S.E., he sold a slave to 'Nanâ-nadinat, wife of Nanâ-iddin, with WI # 9 serving as guarantor (NCBT 1973) (seal: Wallenfels 1994, no. 923), and, ca. 8-18 S.E., he sold a house to Nanâ-iddin himself, witnessed by the present seller and WI # 2 (VAS 15 51). Ana-rabūtika-Anu's wife, 'Ana-rabūtiku/Iddinâ, purchased three slaves in 9 S.E.; the sale was witnessed by the present seller and WI # 5, and recorded by the present scribe (BRM 2 2).

# 2, Anu-uballit/Nidintu-Anu/Aḥ-ūtu, also witnessed the sale of six slaves to Nanâ-iddin, the present co-owner, in 15 S.E., also witnessed by WI # 5 and WI # 6 and recorded by the present scribe (VDI 1955/4 139ff. 1 = BaM Beiheft 2 119 + 120 + frag. 27 + 121) (seal: Sarkisian 1955, fig. 2 [L3]). He also witnessed the sale of a house by WI # 1 to Nanâ-iddin, also witnessed by the present seller, ca. 8-18 S.E. (VAS 15 51), the sale of a house adjoining property owned by WI # 6 in 26 S.E., also witnessed by WI # 1 (NCBT 1960), and, in 36 S.E., the sale of prebendal shares, also witnessed by WI # 4 (VAS 15 4).

# 4, Kidin-Anu/Anu-zēr-iddin, is probably the same man, a descendant of Aḥ-ūtu, who also witnessed, ca. 8-18 S.E., along with the present seller, the sale by WI # 9 of

<sup>6</sup> Doty (1978, 71-72) assumed Anu-bēlšunu to be another son of the present co-owner, i.e., a descendant of Aḥ-ūtu. In support of this identification, he identified this \*Anu-bēlšunu/Nanâ-iddin/Aḥ-ūtu with the owner of neighboring property in the Adad Temple district named in VAS 15 23 (33 S.E.) and BRM 2 18 (68 S.E.). In both of these texts, however, the neighbor's name is given as Anu-bēlšunu/Tanittu-Anu/Aḥ-ūtu (VAS 15 23:3, 4, 5, 7, 8; BRM 2 18:3, 4, 5, 7, 9, 11f., 14), making him a brother (e.g., VAS 15 51:23), not a son, of the present co-owner.

two slaves to two sons of Nanâ-iddin, the present co-owner (MLC 2168 = NCBT 1967) (seal: Wallenfels 1994, no. 333). Kidin-Anu also witnessed the sale of arable land to the present co-owner  $\leq 17$  S.E. (YBC 4645) (seal: Wallenfels 1994, no. 333), and sales of a variety of prebendal shares in 20 S.E. (BRM 2 3) (seal: Wallenfels 1994, no. 333), 36 S.E., also witnessed by WI # 2 (VAS 15 4), 43 S.E. (OECT 9 11), 47 S.E. (NCBT 1972), 48 S.E. (WZJ 19 1970 905ff.) (seal: Oelsner 1970, 908, Abb. 3b [B2] = Wallenfels 1994, no. 822), 48 S.E. (BRM 2 11) (seal: Wallenfels 1994, no. 822), and 50 S.E. (TCL 13 236).

# 5, Ina-qibīt-Anu/Kidin-Anu//Ekur-zakir, also witnessed several other slave sales. In 9 S.E., together with the present seller, he witnessed the sale, recorded by the present scribe, of three slaves to the wife of WI # 1 (BRM 2 2) (seal: Wallenfels 1994, no. 4). He also witnessed on three different occasions the sales of a total of ten slaves to Nanâ-iddin, the present co-owner: three in 14 S.E., also witnessed by WI # 1 and recorded by the present scribe (VAS 15 3), six in 15 S.E., also witnessed by WI # 2 and WI # 6 and recorded by the present scribe (VDI 1955/4 139ff. 1 = BaM Beiheft 2 119 + 120 + frag. 27 + 121) (seal: Sarkisian 1955, fig. 2 [B4]), and one, ca. 8-19 S.E. (NCBT 1966). Ina-qibīt-Anu also witnessed the donation of one slave in 23 S.E. (OECT 9 4), the sale or donation of a slave in an undated text (BiMes 24 39) (seal: cf. Weisberg 1991, pl. 99, Le.E. [L3']), and a land sale in the Ištar City Gate district, ca. 24-29 S.E. (MLC 2159).

# 6, Anu-qīšan/Tanittu-Anu//Aḥ-ūtu, also witnessed the purchases by the present co-owner of eight slaves in 12 S.E. (MLC 2192 = MLC 2198) (seal: Wallenfels 1994, no. 43), and six slaves in 15 S.E., the latter also witnessed by WI # 2 and WI # 5 and recorded by the present scribe (VDI 1955/4 139ff. 1 = BaM Beiheft 2 119 + 120 + frag. 27 + 121) (seal: Sarkisian 1955, fig. 2 [T2] = no. 6). Anu-qīšan also witnessed a real estate sale sometime during the reign of Seleucus I (VAS 15 15 + VAS 15 29), and a contract to supply brewing materials to the present co-owner in 12 S.E. (NCBT 1953) (seal: Wallenfels 1994, no. 43). He is also referred to in a boundary description in a real estate sale in 26 S.E., to which WI # 1 and WI # 2 were also witnesses (NCBT 1960).

# 8, Rabi-Anu/Anu-zēr-ibni//Kurī, also witnessed, along with the present seller, the sale of three slaves to the present co-owner in 12 S.E. (MLC 2194) (seal: Wallenfels 1994, no. 922). He also appears in boundary descriptions in two different land sales in 38 S.E. (NCBT 1952, NCBT 1976).

# 9, Anu-uballit/Šamaš-ittannu//Aḥ-ūtu, borrowed 62 sheqels in 13 S.E. (OECT 9 3). He was a witness to the sale of two slaves to 'Nanâ-nadinat, wife of the present co-owner, in 16 S.E. (MLC 2184) (seal: no. 42); he was one of two guarantors to the sale of a slave by WI # 1 to 'Nanâ-nadinat in 17 S.E. (NCBT 1973) (seal: Wallenfels 1994, no. 32\*); and he sold a slave to 'Nanâ-nadinat and Nanâ-iddin's sons Kidin-Anu and Anu-ab-utēr, ca. 8-18 S.E., the sale being witnessed by the present seller and WI # 4 (MLC 2168 = NCBT 1967) (seal: no. 42).

<sup>8</sup> This seal may be among the very few seals used by more than a single individual: it appears, captioned Nidintu-Anu, on MLC 2168 = NCBT 1967 (ca. 8-18 S.E.) and is to be attributed to either of two witnesses by that name, one the son of Tanittu-Anu//Aḥ-ūtu, the other the son of Lā-bāšī//Aḥ-ūtu. However, in light of at least one other certain scribal error on NCBT 1973 (Wallenfels 1994, 144), it may be that Anu-uballit's name actually belongs beneath Wallenfels 1994, no. 559, a fragmentary seal impression which may in fact be identical with no. 42.

## Text I

# 11, Lā-bāši/[. . .], in a relatively rare break with convention,<sup>9</sup> had his seal placed on the right edge, to the right of the seller-guarantor.

The scribe, Anu-bēlšunu/Itti-Anu-nuḥṣu//Sîn-leqi-unnīni, recorded at least three other slave sales including BRM 2 2 (9 S.E.), in which the wife of WI # 1 was the buyer and the present seller and WI # 5 were among the witnesses; VAS 15 3 (14 S.E.), in which the present co-owner was the buyer and WI # 1 and WI # 5 were among the witnesses; and VDI 1955/4 139ff. 1 = BaM Beiheft 2 119 + 120 + frag. 27 + 121 (15 S.E.), in which the present co-owner was the buyer and WI # 2, WI # 5 and WI # 6 were among the witnesses. Anu-bēlšunu also recorded MLC 2202 (9 S.E.), the protocol of a hearing before an assembly of freemen concerning the disposition of a slave originally owned by the man whose name marked the present slave's right hand. He also recorded MLC 2200 (16 S.E.), a contract for the future delivery of dates to the wife of the present co-owner.

<sup>9</sup> In a practice introduced after the reign of Darius II, the right edge of a tablet was reserved for those parties in the transaction ceding rights or undertaking specific obligations (Krückmann 1931, 25). Other examples where the seal of a witness occurs on the right edge include BRM 2 4, BRM 2 10, FuB 16 24f. 1, OECT 9 4, OECT 9 12 = OECT 9 13, VAS 15 21, VAS 15 39 = VAS 15 40 = VAS 15 49, VAS 15 51.

is, all of it, for 10 sheqels of silver of Seleucus in good condition, (10) as the full sale price, to Rihāt-Anu, son of Lā-bāši, the architect, in perpetuity.

[The] mo[ney], 10 sheqels, the purchase price of that house, Rihāt-Ištar, [has received from (and) was paid by] Rihāt-Anu. ## Comments:

For the standard formulary for the sale of real estate, see Krückmann 1931, 24-38; Petschow 1939, 69-72; Lewenton 1970, 2-7; Doty 1977, 64-82. Note the omission of the expected mutual guaranty clause following the clause for the provision for defense against claim (ll. 12-15) (cf. Lewenton 1970, 62, n. 239).

Twelve of the persons named in this transaction also occur in various combinations of from two to four each in nine other transactions, of which seven concern real estate. In addition, nine persons, including six of the preceding, occur individually in yet another twenty-nine transactions, of which fifteen concern real estate.

The buyer, Rihāt-Anu/Lā-bāši, whose grandfather's name was Anu-mār-ittannu, appears to have combined the present property, for which he paid 10 sheqels, with contiguous pieces later acquired: (1) by his wife 'Yā/Nanā-iddin, for 6 sheqels, in 78 S.E. (BRM 2 23 = MLC 2123A); (2) in a division of his father's and his uncle Nanā-iddin's properties, which he shared with his brother Anu-mār-ittannu, in 82 S.E. (BRM 2 24 = MLC 2124A) (seal: Wallenfels 1994, no. 848); and (3) in a purchase for 2 sheqels from Ardi-Rēš/Illut-Anu, Anu-ittannu/Illut-Anu and Idat-Anu/Nidintu-Anu in 83 S.E. (BiMes 24 21). He then sold more or less the entire assemblage for 60 sheqels to Anu-mār-ittannu/Nidintu-Ištar, a parchment scribe, in 89 S.E., in a text written by the present scribe (BRM 2 28 = BiMes 24 19) (seal: Wallenfels 1994, no. 112). Rihāt-Anu had also purchased shares in the builder's prebend, also witnessed by WI # 1 and WI # 8, in 77 S.E. (BRM 2 22 = BiMes 24 1).

The personal name of the guarantor, Mattān-Anu/[. . .], written <sup>m</sup>*mat-tan-na*-d60, is a *Mischname* apparently formed with the Aram. 𐤓𐤓 "gift," i.e. "gift of Anu." A contemporary figure bears the name Mattānāt-Anu, written <sup>m</sup>*mat-ta-na-at*-d60 (BRM 2 26:5,7)

and <sup>m</sup>mat-tan-na-at-<sup>d</sup>60 (MLC 2164:12,15,16), a *Mischname* formed from the Aram. מִתְּנָה (const. מִתְּנָה) also meaning "gift"; his father's name is given as <sup>m</sup>a-(a-)ti-<sup>d</sup>60.<sup>1</sup>

Among the neighbors:

Anu-aḥ-ittannu/Ana-rabūtika-Ištar also appears in the boundary descriptions of properties acquired by the present buyer in 82 S.E. (BRM 2 24 = MLC 2124A) and by the latter's wife, <sup>1</sup>Yā/Nanā-iddin, in 78 S.E. (BRM 2 23 = MLC 2123A).

Dumqi-Anu/Kidin-Anu, who was a descendant of Luštammar-Adad,<sup>2</sup> also appears in boundary descriptions of property first acquired by the present buyer in 82 S.E. (BRM 2 24 = MLC 2124A) and later sold by him in 89 S.E. (BRM 2 28 = BiMes 24 19).

Lā-bāši/Anu-[mar(?)ittannu(?)] is presumed to be the father of the present buyer: he was a builder (<sup>lū</sup>itinnu) who was the previous owner of the property divided up in 82 S.E. by two of his sons (BRM 2 24 = MLC 2124A), one of whom is the present buyer; he also appears in the boundary description of land purchased by the present buyer's wife in 78 S.E. (BRM 2 23 = MLC 2123A). Lā-bāši is also referred to among the co-beneficiaries of the quitclaim to a builder's prebend, food allotment and storehouse in the Irigal in 122 S.E. (text VII = BRM 1 98).

Among the witnesses:

# 1, Rihāt-Anu/Anu-uballit/Luštammar-Adad, also witnessed: the sale of prebendal shares in the Šēri-Palace in the ḥallat-garden in 48 S.E. (VDI 1955/4 142ff. 2) (seal: Sarkisian 1955, fig. 3 [T2]); a division of real estate among three brothers in 61 S.E. (MLC 2162) (seal: Wallenfels 1994, no. 637); the purchase of shares in the builder's prebend by the present buyer in 77 S.E., also witnessed by WI # 8 (BRM 2 22 = BiMes 24 1) (seal: no. 40); a quitclaim concerning a female slave in 84 S.E. (OECT 9 22); and the sale(?) of prebendal(?) shares in 87 S.E., also witnessed by WI # 9 and recorded by the present scribe (NCBT 1947) (seal: cf. Wallenfels 1994, nos. 366, 550, 673, 674).

# 3, Anu-balāssu-iqbi/Nanā-iddin/Luštammar-Adad, also witnessed a quitclaim<sup>3</sup> concerning real estate in the Adad Temple district and shares in the brewer's(?) prebend in 68 S.E. (BRM 2 18) (seal: cf. Wallenfels 1994, no. 827).

# 4, Līšer/Nidintu-Anu/Gimil-Anu, also witnessed: sales of real estate in the Šamaš City Gate district, also witnessed by WI # 5, in 75 S.E. (BRM 2 21) (seal: no. 87), and in the Ištar City Gate district in 76 S.E. (OECT 9 24); and a quitclaim to a piece of real estate, also witnessed by WI # 9, ca. 76–88 S.E. (NCBT 1964). Seal no. 87 also appears on an undated clay bulla (YBC 3065) originally enclosing a parchment document.

# 5, Anu-šum-līšer/Anu-zēr-iddin/Hunzû, whose grandfather's name is Ša-Anu-iššû,<sup>4</sup> also witnessed the sale of real estate in the Šamaš City Gate district, also witnessed by WI # 4, in 75 S.E. (BRM 2 21) (seal: Wallenfels 1994, no. 575), and a division of

#8, Lišer/Anu-aḥḥē-iddin/Gimil-Anu, whose grandfather's name is Anu-ab-ušur,<sup>5</sup> also witnessed: a quitclaim<sup>6</sup> to real estate in the Ištār City Gate district in 67 S.E. (MLC 2164) (seal: Wallenfels 1994, no. 723); the sale of shares in the prebend for those who may enter the temple in 71 S.E. ### Comments

For the standard formulary for quitclaims, see Krückmann 1931, 47-53; Lewenton 1970, 33-39; Doty 1977, 93-100. Note the absence of any further provisions for the clearing of future claims following the clause restricting the power of disposition of the waiver (l. 16) (cf. text VII:15-16) (Lewenton 1970, 80-81; cf. Doty 1977, 94, n. 193). Also note the addition of two statements: the first, noting the prior purchase of the property in question by the waiver from a third party (ll. 9-10), inserted following the property description; and the second, confirming the ownership by the beneficiary of prior documents drawn up in the name of the waiver concerning that property (ll. 18-20), appended following the normally final transfer of ownership clause (cf. Krückmann 1931, 51; Lewenton 1970, 34).

Eleven of the persons named in this transaction also occur in various combinations of from two to three each in nine other transactions, of which six concern real estate. In addition, eight persons, including seven of the preceding, occur individually in yet another sixty transactions, of which twenty concern real estate.

The waiver, Nidintu-Anu/Anu-uballit/Nidintu-Anu/Tattannu//Sîn-leqi-unnīni, just eight months later, used the same seal (no. 30) witnessing the division of real estate in the Adad Temple district (BiMes 24 53 = MLC 2170) between two brothers, Anu-uballit and Anu-bēlšunu/Nidintu-Anu, who may have been either his sons or father and uncle, and a third man, Anu-uballit/Nanâ-iddin//Sîn-leqi-unnīni; this transaction was also witnessed

(1) Nidintu-šarri, son of Rihāt-Anu, son of Lā-bāši, the builder, of his own free will, has sold his storehouse, a finished structure, which is in the Irigal, in the courtyard of the gate of Ištar — the upper long side on the north is adjacent to the *kuburrû*-wall of the portico of the brewers' house; the lower long side on the south is adjacent to the enclosure-wall which is in the courtyard of the gate of Ištar; the upper short side on the west is adjacent to the courtyard (5) of the gate of Ištar which is part of the right-of-way of that storehouse; the lower short side on the east is adjacent to the *kuburrû*-wall of the Irigal which is between that storehouse and the storehouses of Kidin-Anu, son of Anu-aḥḫē-iddin, descendant of Hunzû, and Sumuttu-Anu, son of Nanâ-iddin, son of Nadin, descendant of Kuri: the total of the long sides and short sides are the measured area of that storehouse — that storehouse, less or more, as much as there is, all of it, for 25 sheqels of refined silver, (10) staters of Antiochus in good condition, as the full sale price, to Nanâ-iddin, son of Anu-ab-utēr, descendant of Luštammar-Adad, in perpetuity.

The money, 25 sheqels, the full sale price of that storehouse, Nidintu-šarri has received from (and) was paid by Nanâ-iddin. When a claim is brought concerning that storehouse, Ubār, son of Anu-uballiṭ, son of Ubār, (15) descendant of Šumāt, will clear (it) and pay the 12-fold (penalty) to Nanâ-iddin, son of Anu-ab-utēr, in perpetuity. Nidintu-šarri, son of Rihāt-Anu, and Ubār, son of Anu-uballiṭ, mutually assume guaranty for the clearing of that storehouse for Nanâ-iddin, son of Anu-ab-utēr, in perpetuity.

That storehouse of Nanâ-iddin, son of Anu-ab-utēr, descendant of Luštammar-Adad, is his in perpetuity.

(20–26) (list of ten witnesses)

(27) Nidintu-Anu, the scribe, son of Anu-bēlšunu, descendant of Ekur-zakir. Uruk. Araḥsamnu 16, (28) year 109, Antiochus and Antiochus, his son, kings.

### Comments

For the standard formulary for the sale of real estate, see Krückmann 1931, 24–38; Petschow 1939, 69–72; Lewenton 1970, 2–7; Doty 1977, 64–82.

Nine of the persons named in this transaction also occur in various combinations of from two to three each in twelve other transactions, of which three concern real estate. In addition, eleven persons, including eight of the preceding, occur individually in yet another forty-two transactions, of which sixteen concern real estate.

The seller, Nidintu-šarri/Rihāt-Anu/Lā-bāši <sup>10</sup> *itinnu*, was also the buyer of real estate in the Istar City Gate district in 119 S.E. (BRM 2 32 = MLC 2171), and an exchanger of real estate in the same area in 129 S.E. (BRM 2 35) (seal: Wallenfels 1994, no. 486). He was no doubt kin to the family of builders and architects in text VII.

The buyer, Nanā-iddin/Anu-ab-utēr//Luštammar-Adad, also witnessed the sale, recorded by the present scribe, of a similar Irigal storehouse, by perhaps the present seller,<sup>2</sup> in 112 S.E. (OECT 9 47). Nanā-iddin had obtained prebendal shares in 103 S.E. which his son, Anu-uballit, later sold ca. 125–137 S.E. (OECT 9 42).<sup>3</sup> Nanā-iddin is also referred to in a boundary description of an Irigal storehouse sold in 122 S.E. (OECT 9 49).

Both of the neighbors named in the boundary descriptions of the present property, Kidin-Anu/Anu-aḥḥē-iddin//Hunzû and Sumuttu-Anu/Nanā-iddin/Nadin//Kurî, were also witnesses, # 5 and # 7, respectively, to the transaction.

Among the witnesses:

# 1, Lā-bāši/Anu-bēlšunu/Lā-bāši//Aḥ-ūtu, also witnessed a prebend sale ca. 102–119 (OECT 9 44), and a land sale in the Adad Temple district in 122 S.E. (VAS 15 14).

# 2, Anu-aḥ-ittannu/Nidintu-Anu/Anu-bēlšunu//Aḥ-ūtu, also witnessed a land sale in the *kīprat bīt ilānī* district in 146 S.E. (VAS 15 13), and may be referred to in a boundary description in an unknown district, ca. 90–102 S.E. (VAS 15 42).

# 3, Mukin-apli/Anu-bēlšunu//Aḥ-ūtu, also witnessed the sale of a share in temple meat offerings in 109 S.E. (BiMes 24 2) (seal: Weisberg 1991, pl. 5, U.E. [T3]), the sale of prebendal shares in 109 S.E. (VAS 15 19) and 125 S.E. (OECT 9 50), and sales of land in the Adad City Gate district in 128 S.E. (MLC 2187) (seal: cf. Wallenfels 1994, nos. 267, 961) and in the Istar City Gate district, ca. 125–137 S.E. (OECT 9 56). He also shared in the division of property with his two brothers and two of his nephews in the Lugalgirra Temple district in 94 S.E. (VAS 15 50).

# 4, Nidintu-Anu/Bēlšunu//Aḥ-ūtu, also witnessed the sales of various prebendal shares in 86 S.E., in which WI # 5 was the buyer (OECT 9 25), 90 S.E. (Oppert-Ménant Doc.jur. 313f. 4), ca. 95–96 S.E., also witnessed by WI # 9 (NCBT 1954) (seal: cf.

<sup>2</sup> See discussion among the comments to the beneficiary of text VII, below.

<sup>3</sup> See McEwan 1984: the sales document of 103 S.E. is referred to by the term *kur-ra-pe-e*, γραφή (?) (OECT 9:5); this may well have been a parchment document, perhaps recorded in Greek, enclosed within a clay bulla bearing the seal impressions of the two sellers and seven witnesses (OECT 9 42:4–9).

Wallenfels 1994, nos. 478, 727), and ca. 102–119 S.E. (NCBT 1955) (seal: no. 11). He also witnessed a division of land in the Pleasure Garden district in 88 S.E. (TCL 13 240), the lease of prebendal shares, in which WI # 5 was the leaser, in 97 S.E. (OECT 9 37), and the division of four slaves in 107 S.E., also witnessed by WI # 9 (OECT 9 43).

# 5, Kidin-Anu/Anu-aḥḥē-iddin//Ḥunzû, whose grandfather's name was Nanâ-iddin, witnessed the sale of prebendal shares, also witnessed by WI # 8, in 95 S.E. (OECT 9 33). However, Kidin-Anu is most commonly encountered in the archival texts as the buyer of shares of predominantly the brewer's, butcher's and baker's prebends in 78 S.E. (OECT 9 19), 80 S.E. (OECT 9 20 = NBDM 91), 84 S.E. (OECT 9 23), 84 S.E. (OECT 9 24), 86 S.E., witnessed by WI # 4 (OECT 9 25), ca. 67–89 S.E. (OECT 19 14), ca. 67–89 S.E. (OECT 9 64), ca. 80–90 S.E. (OECT 9 21), 93 S.E., witnessed by WI # 7 (OECT 9 30 = OECT 9 31), 95 S.E., witnessed by WI # 8 (OECT 9 32), 96 S.E. (OECT 9 34 = OECT 9 35), and 97 S.E. (OECT 9 36); he was also the leaser of prebendal shares, ca. 51–66(?) S.E. (OECT 9 28), and in 97 S.E., also witnessed by WI # 4 (OECT 9 37). Kidin-Anu also shared in an exchange of houses in an unknown district, ca. 91–102 S.E. (OECT 9 29). He was referred to in boundary descriptions to two properties in the Iṣṭar City Gate district, the first purchased by his wife, 'Ēṭirtu/Anu-uballit, in 79 S.E. (TCL 13 239), the second being divided among three brothers in 103 S.E. (OECT 9 41). 'Ēṭirtu also independently purchased shares of a baker's prebend in 72 S.E. (OECT 9 15).

# 6, Dumqi-Anu/Tattannu//Ḥunzû, also witnessed the sale of a house in the Iṣṭar City Gate district, in which WI # 7 was a neighbor, in 85 S.E. (BRM 2 26) (seal: Wallenfels 1994, no. 533). He also witnessed the sale of shares in the oil presser's prebend in 111 S.E., also witnessed by WI # 9 (text V) (seal: no. 49).

# 7, Sumuttu-Anu/Nanâ-iddin/Nadin//Kurî, also witnessed a division of real estate in the Iṣṭar and Market City Gate districts in 82 S.E. Sumuttu-Anu also witnessed a land sale in the Iṣṭar City Gate district in 104 S.E., again written by the present scribe (NCBT 2306) (seal: no. 20); he is referred to in a boundary description of a house sold in that district in 85 S.E., also witnessed by WI # 6 (BRM 2 26); and he was the previous owner of a house there in a quitclaim written in 87 S.E. (text III = BRM 2 27). Seal no. 20, the second of Sumuttu-Anu's two known seals, also appears on an undated clay bulla (MLC 2637) originally enclosing a parchment document.

# 8, Kidin-Anu/Ardi-Ninurta <sup>1a</sup>*sepîr makkûr Anu*, also witnessed the sales of shares of various prebends: twice in 95 S.E., the first, in which WI # 5 was the buyer (OECT 9 32), the second, also witnessed by WI # 5 (OECT 9 33); and again, ca. 108–109 S.E. ## Comments

Portions of the oil processor's prebend are also bought and sold in OECT 9 11 (43 S.E.), VAS 15 28 (ca. 90-125 S.E.),<sup>1</sup> and OECT 9 59 (ca. 151-161 S.E.). For the standard formulary for the sale of prebendal shares, see Krückmann 1931, 24-38; Petschow 1939, 69-72; Lewenton 1970, 2-7; Doty 1977, 52-63. On the topic of prebends themselves, see McEwan 1981, 67-120; Funck 1984.

<sup>2</sup> On the use of this term to translate Akk. *bīt pirišti*, see Doty 1993.

<sup>3</sup> The elder Kidin-Anu, in a second century colophon to a copy of a tablet enumerating the daily offerings to the gods of Uruk (TCL 6 38:43–50), is credited with the original's discovery in Elam during the early third century after having been stolen from Uruk by Nabopolassar; the elder Kidin-Anu also appears to have been responsible for the renewed interest in seals bearing images of the anthropomorphic- and fish-*apkallu* engaged in a purification ritual, a motif which remained particularly fashionable among several generations of his descendants, many of whom were exorcists and astrologers (see Wallenfels 1993).

Portions of the *gerseqqû*-prebend are also bought and sold in Doty Uruk 416ff. (ca. 32–42 S.E.), BRM 2 15 (56 S.E.), Oppert-Ménant Doc.jur. 313f. 4 (90 S.E.), MLC 2165 (108 S.E.), VAS 15 18 (108 S.E.), MLC 2201 = BaM Beiheft 2 132 + BiMes 24 3 (116 S.E.), OECT 9 51 (ca. 125–137 S.E.), and FuB 16, 34, 15 (n.d.). For the standard formulary for the sale of prebendal shares, see Krückmann 1931, 24–38; Petschow 1939, 69–72; Lewenton 1970, 2–7; Doty 1977, 52–63. On the topic of prebends themselves, see McEwan 1981, 67–120; Funck 1984.

Ten of the persons named in this transaction also occur in various combinations of from two to three each in five other transactions, of which three concern prebends. In addition, eleven persons, including all of the preceding, occur individually in yet another thirty-four transactions, of which eighteen concern prebends.

The buyer, Anu-bēlšunu/Nidintu-Anu/Anu-uballit/Sîn-leqi-unnîni, had previously purchased *gerseqqû*-prebend shares in 116 S.E. (MLC 2201 = BaM Beiheft 2 132 + BiMes 24 3). In other business, he divided real estate with his brother Anu-uballit and one Anu-uballit/Nanâ-iddin/Sîn-leqi-unnîni in 88 S.E. (MLC 2170 = BiMes 24 53) (seal: Wallenfels 1994, no. 563), and with his brothers Anu-uballit and Anu-aḥḥē-iddin in 98 S.E. (NCBT 1958); he appears also with his brother Anu-uballit in a quitclaim(?) concerning rights to certain meat offerings in an undated text (BiMes 24 9). He also witnessed the sales of prebendal shares concerning those who may enter the temple in 99 S.E. (TCL 13 242) and ca. 110–119 S.E. (OECT 9 57), and the sale of a storehouse

claims by the donor following the clause restricting the power of disposition of the waiver (l. 14) (Lewenton 1970, 80, n. 289).

Three of the persons named in this transaction also occur in one combination each of two and three in two other transactions concerning prebends. In addition, nine persons, including all of the preceding, occur individually in yet another twenty-eight transactions, of which six concern prebends and twenty concern real estate.

The waiver-guarantor, Anu-mār-ittannu/Lā-bāši/Anu-mār-ittannu <sup>lū</sup>itinnu, in 82 S.E. (BRM 2 24 = MLC 2124A) (seal: Wallenfels 1994, no. 610), had received a house in the Market Gate district, shares in the builder's prebend and the appurtenant food offerings in a division of property with his older brother, Riḫāt-Anu. The prebendal shares and food offerings are likely the same to which Anu-mār-ittannu is here relinquishing claim. In 124 S.E. (see text VIII, written by the present scribe and also witnessed by WI # 8), Anu-mār-ittannu, now bearing the title <sup>lū</sup>arad-ekalli,<sup>2</sup> "gave" for a compensatory payment of silver the Market Gate district property, along with a female slave, to Riḫāt-Anu/Lā-bāši/Riḫāt-Anu, and his brother Nidintu-Anu,<sup>3</sup> probably grandsons of Anu-mār-ittannu's brother.<sup>4</sup> The seal (no. 56) used by Anu-mār-ittannu here on text VII was later used at least three times between 124 and 144 S.E. by one Nidintu-Ištar/Anu-aḫḫē-iddin <sup>lū</sup>sepīr makkūr Anu; Anu-mār-ittannu himself used seal no. 3 on text VIII in 124 S.E. Seal no. 56 also appears on an undated clay bulla (YBC 3052) originally enclosing a parchment document.

The beneficiary, Lā-bāši/Riḫāt-Anu/Lā-bāši <sup>lū</sup>itinnu, <sup>lū</sup>šitimgallu ša Anu, probably the nephew of the waiver, first appears without title as the guarantor to the sale by his father, an <sup>lū</sup>arad-ekalli, of a house in the Ištar City Gate district in 89 S.E. (BRM 2 28 = BiMes 24 19) (seal: Wallenfels 1994, no. 854). Lā-bāši appears with the title <sup>lū</sup>itinnu both as a buyer of land in the Ištar City Gate district in 137 S.E. (BiMes 24 13) and as a witness to a quitclaim to shares of the prebend concerning those who may enter the sacristy together with the goldsmith's prebend, ca. 126-129 S.E. (OECT 9 54 = OECT 9 55), to the sale of shares of the same prebend, ca. 125-137 S.E. (OECT 9 42), and to the sale of a house in the Miḫallake Temple district in 138 S.E. (MLC 2156) (seal: Wallenfels 1994, no. 1090).

In text IV (109 S.E.), the seller of a storehouse within the precincts of the Irigal was one Nidintu-šarri/Riḫāt-Anu/Lā-bāši <sup>lū</sup>itinnu who may very well be the brother of the present Lā-bāši. However, in OECT 9 47 (112 S.E.), in which the present scribe was a witness, the seller of a similar storehouse at the Irigal was one Lā-bāši, whose other name is Nidintu-šarri, the son of Riḫāt-Anu (the remainder of the patronymic being lost). It is therefore conceivable that Lā-bāši/Riḫāt-Anu/Lā-bāši <sup>lū</sup>itinnu in text VII and Nidintu-šarri/Riḫāt-Anu/[...] in text IV are one and the same person.<sup>5</sup>

<sup>3</sup> Nidintu-Anu appears in 146 S.E., with the title <sup>lū</sup>itinnu, among the witnesses to the sale of property within the Irigal (MLC 2166).

<sup>5</sup> Note further that Nanā-iddin/Anu-ab-utēr/Luštammār-Adad, the buyer of the Irigal storehouse from

## Text VII

Among the co-beneficiaries, Lā-bāši/Anu-mār-ittannu<sup>10</sup> *itinnu*, may either be the waiver's father or an otherwise unknown son. Nanā-iddin/Kidin-Anu<sup>10</sup> *itinnu*, apparently when a very much younger man, was one of a group of eleven assignees, all <sup>10</sup>*arad- ekalli*, designated in 67 S.E. to perform a ritual (BRM 2 17). Šapik/Anu-aḥ-ušabši<sup>10</sup> *itinnu* is otherwise unknown.

Among the witnesses:

# 1, Anu-bēlšunu/Nidintu-Anu/Anu-bēlšunu//Aḥ-ūtu, also witnessed the sale of a storehouse within the Rēš, ca. 151-161 S.E. (MLC 2175) (seal: cf. Wallenfels 1994, no. 969).

# 3, Anu-šum-līšer/Ina-qibīt-Anu/Nidintu-Anu//Hunzû, also witnessed a real estate sale in the Pleasure Garden district in 96 S.E. (Speleers Recueil 298 = Speleers Recueil 300).

# 4, Anu-aḥḥē-iddin/Nidintu-Anu/Anu-aḥḥē-iddin//Aḥ-ūtu, also witnessed the sale of shares in the baker's prebend ca. 103-119 S.E. (NCBT 1961) (seal: cf. Wallenfels 1994, nos. 521, 742). He and his brother, Ištar-šum-eriš, were the sellers of real estate in the Šamaš City Gate district in 161 S.E. (Bab. 15 188ff.).

# 5, Anu-mār-ittannu/Ina-qibīt-Anu/Nidintu-Ištar//Kurî, also witnessed the sale of shares of the prebend concerning those who may enter the temple, ca. 102-119 S.E. (NCBT 1955) (seal: Wallenfels 1994, no. 599), the sale of a storehouse within the Irigal in 122 S.E. (OECT 9 49), and the dedication of three slaves, ca. 123-125 S.E. (YBC 11633) (seal: no. 55).

# 7, Anu-bēlšunu/Anu-bēlšunu<sup>10</sup> *Urkāyya*, is the only person in the present corpus, and one of a few in the corpus at large, to have the same personal name as his father;<sup>6</sup> he is also the only free person in the present corpus not to be identified either with the name of an eponymous ancestor or a temple-related occupational title, but rather with a gentilic. He may be the same person, the grandson of Nanā-iddin (without any further identification given), who witnessed a real estate sale in the Ištar City Gate district, ca. 125-137 S.E. (OECT 9 56).

# 8, Ardi-Ninurta/Anu-mār-ittannu<sup>10</sup> *sepîr makkûr Anu*, whose grandfather's name was Nidintu-Ištar, also witnessed the sales of shares of the prebend concerning those who may enter the sacristy together with the goldsmith's prebend in 111 S.E. (OECT 9 45 = OECT 9 46), shares of the prebend concerning those who may enter the temple together with the butcher's prebend, ca. 120-124 S.E., written by the present scribe (BRM 2 55 + FuB 16 36 21 + AoF 5 86f. 13) (seal: no. 73), and shares of the brewer's prebend in 141 S.E. (BiMes 24 10) (seal: Wallenfels 1994, no. 143). He also witnessed: the gift of a house in the Market City Gate district together with a female slave in 124 S.E., written by the present scribe and in which the present waiver was the donor (text VIII) (seal: no. 77); an exchange of properties in the Ištar City Gate district in 129 S.E.

Nidintu-sarri in text IV is among the witnesses (restoring the ancestral name) to the sale of the Irigal storehouse by Lā-bāši—Nidintu-sarri in OECT 9 47.

<sup>6</sup> Other Babylonians exhibiting this rare naming practice include Anu-ab-ušur/Anu-ab-ušur/Anu-mār-ittannu/Hunzû (BRM 2 50 = Speleers Recueil 295, MLC 2175), Anu-aḥ-ittannu/Anu-aḥ-ittannu//Hunzû (NCBT 1959), Anu-mukin-apli/Anu-mukin-apli/Anu-mār-ittannu (BRM 2 36), Anu-uballit/Anu-uballit//Ekur-zakir (OECT 9 51), and Kîtu-Anu/Kîtu-Anu/Nidintu-Anu/Kîtu-Anu (MLC 2186); also note Anu-aḥ-ittannu—Dumqi-Anu/Dumqi-Anu//Luštammar-Adad (BiMes 24 13). A single Greek, Apollōnos/Apollōnos (NCBT 2304), is also observed.

(BRM 2 35) (seal: no. 77); and sales of real estate in the Ištar City Gate district in 133 S.E. (BRM 2 37 = BiMes 24 23) (seal: no. 77), in an unknown district in 143 S.E. (VAS 15 34), and in the Pleasure Garden district in 147 S.E. (MLC 2169) (seal: Wallenfels 1994, no. 143). He was also the seller of real estate in an unknown district in 122 S.E. (VAS 15 38). Seal no. 73, the first of Ardi-Ninurta's three known seals, also appears on an undated clay bulla (YBC 3051) originally enclosing a parchment document.

The scribe, Anu-qīšan/Nidintu-Anu//Sîn-leqi-unnīni, recorded at least nine different transactions, including the present text, between 102 and perhaps as late as 137 S.E. The remaining eight texts include the real estate sales VAS 15 48 (102 S.E.), VAS 15 12 = Bab. 8 27ff. (130 S.E.), BRM 2 32 = MLC 2171 (119 S.E.), and MLC 2652 = MLC 2655 (119 S.E.), the sale of prebendal shares BRM 2 55 + FuB 16 36 21 + AoF 5 86f. 13, also witnessed by WI # 8 (ca. 120-124 S.E.), the gift of a house and a slave text VIII, in which the present waiver was the donor and WI # 8 was also a witness (124 S.E.), the division of property VAS 15 39 = VAS 15 40 = VAS 15 49 (132 S.E.), and the lease of a storehouse in the Anu sanctuary within the Rēš temple VAS 15 31 (ca. 123-137 S.E.). Anu-qīšan is the only Seleucid Uruk scribe to include his priestly title, <sup>lū</sup> *galmāḥ* Anu, when identifying himself as the scribe of archival tablets. He appears, without his title, among the witnesses to a real estate sale within the Irigal temple in 112 S.E., in which the present beneficiary may have been the seller (OECT 9 47).

(1) Anu-mār-ittannu, son of Lā-bāši, the architect, of his own free will, has given as a gift his finished house in the district of the Market City Gate, which is in Uruk — the upper long side on the north is the bank of the Ištār Canal; the lower long side on the south is adjacent to the vacant lot of the sons of Ardi-Ninurta, the parchment scribe of the estate of Anu; the upper short side on the west is adjacent to the street leading down to the Ištār Canal; the lower short side on the (5) east is adjacent to the vacant lot of that house and the vacant lot of the sons of Anu-aḥ-iddin, son of Nidintu-Anu, descendant of Ekur-zakir: the total of the long sides and short sides is the measured area of that house — that house, less or more, as much as there is, all of it, and Riḫāt-Bēlet-šēri, the slave-girl whose right hand is not marked, daughter of Sumuttu-Anu, to Riḫāt-Anu and Nidintu-Anu, sons of Lā-bāši, son of Riḫāt-Anu, the architect, (10) in perpetuity.

In place of the gift of that house and Riḫāt-Bēlet-šēri, that slave, Anu-mār-ittannu, son of Lā-bāši, the architect, accepted  $\frac{5}{6}$  mina of silver, staters of Antiochus in good condition, from Riḫāt-Anu and Nidintu-Anu, sons of Lā-bāši, the architect. This Anu-mār-ittannu has no power of disposition, and he did not transfer and is not transferring that house and Riḫāt-Bēlet-šēri, that slave-girl, for money, as a gift, as a dowry, (15) in a business transaction, for any reason or (to) anyone else, except to Riḫāt-Anu and Nidintu-Anu, sons of Lā-bāši, the architect. (But) if he transferred (them or) shall transfer (them), they will not enter (them in the temple records). Further, this Anu-mār-ittannu guarantees to Riḫāt-Anu and Nidintu-Anu, his brother, that there is no legal proceeding and no protestation (or else) he will pay 1 mina of good quality silver.

(20) That house and Riḫāt-Bēlet-šēri, that slave-girl of Riḫāt-Anu and Nidintu-Anu, his brother, sons of Lā-bāši, son of Riḫāt-Anu, the architect, are theirs in perpetuity.

## Comments

Text VIII is one of five texts presently known in which a compensatory payment is made in exchange for the property "given" as a gift (*ana rīmūt*): NCBT 1950 (10.VIII.27 S.E.), the gift of a female slave by a mother to her daughter in exchange for 60 sheqels; NCBT 1939<sup>2</sup> (—, [67–89] S.E.), the gift to an unrelated individual of a plot of land in an unknown district in exchange for between two and four sheqels; the present text (18.X.124 S.E.), the gift of a finished house in the Market City Gate district together with a female slave to the donor's brother's grandsons in exchange for fifty sheqels; OECT 9 50 (28.—.125 S.E.), the gift to an unrelated individual of shares in the prebend concerning those who may enter the sacristy together with the goldsmith's prebend in exchange for ten sheqels; and FuB 16 32f. 13 + AoF 5 83 [W 15016x] (—, .155 S.E.), the gift of a finished house in the vicinity of the Irigal by a mother to her son in exchange for sixty sheqels. A sixth text, BRM 2 50 = Speleers Recueil 295 (20.VIII.166 S.E.), records the gift (*ana rīmūt*), without compensatory payment, of a one-third share in a house in the Šamaš City Gate district together with a garment and a pot, by a son to his mother and father.

How these gifts differed in fact from ordinary sales (*ana kaspi nadānu*) of such items for often comparable prices is difficult to say. In the case of the present text, the donor may or may not have been motivated to avoid payment of the slave sale tax (*ἀνδραπόδων*) and attendant registration fees with the Royal Records Officer (*χρηοφύλαξ*). Note, however, that the other gift of a slave, NCBT 1950, took place a decade prior to the imposition of the Seleucid slave sale tax and registration, circa 37 S.E., and that none of the remaining gifts ever appear to have been subject to taxation or registration.<sup>3</sup> For the standard formulary for deeds of gift, see Krückmann 1931, 44–47; Lewenton 1970, 19–20; Doty 1977, 83–87. Note the addition of the provision for the clearing of future claims following the clause restricting the power of disposition of the waiver (l. 17) (Lewenton 1970, 80–81).

Eight of the persons named in this transaction also occur in various combinations of from two to three each in six other transactions, of which four concern real estate. In addition, nine persons, including six of the preceding, occur individually in yet another twenty-eight transactions, of which nineteen concern real estate.

The slave, <sup>1</sup>Rihāt-Bēlet-šēri/Sumuttu-Anu, is specifically noted as not having had her right hand marked (l. 8: *šá šu*<sup>11</sup> 15-*šú la šat-rat*) with the name of her owner (cf. text

<sup>1</sup> The scribe captioned two impressions, T2 (no. 4) and B3 (no. 33), with the name Ina-qibīt-Anu. One of these seals belongs to WI # 3: Ina-qibīt-Anu/Dumqi-Anu/Ina-qibīt-Anu/Hunzū, the only witness listed with such a personal name; the other seal must belong to WI # 1: Dumqi-Anu/Anu-uballit/Nanā-iddin/Hunzū, whose personal name does not appear in any seal captions.

<sup>2</sup> See Doty 1977, 247–50.

### Text VIII

I:3-4). This formula occurs on just three other documents in reference to both male and female slaves: NCBT 1948 (division of property: 68 S.E.), OECT 9 17 (gift: ca. 60-90 S.E.), and OECT 9 43 (division of property: 107 S.E.). A variant of the formula (*šá šu<sup>II</sup> 15-šú a-na MU šá<sup>16</sup> man-am la šat-rat*) occurs in OECT 9 58:14 (exchange of properties: 143 S.E.).<sup>4</sup>

The donor-guarantor, Anu-mār-ittannu/Lā-bāši, had received the present house in the Market Gate district, as well as shares in the builder's prebend and the appurtenant food offerings, in a division with his older brother, Riḫāt-Anu, of property belonging of his father and his father's brother, Nanā-iddin, in 82 S.E. (BRM 2 24 = MLC 2124A) (seal: Wallenfels 1994, no. 610). Those prebend shares and food offerings are likely the same to which Anu-mār-ittannu relinquished claim in 122 S.E. (text VII = BRM 1 98) (seal: no. 56) in a quitclaim also witnessed by WI # 7 and written by the present scribe.

The recipients, Riḫāt-Anu, and his brother Nidintu-Anu/Lā-bāši/Riḫāt-Anu, are probably grandsons of the donor Anu-mār-ittannu's brother.<sup>5</sup> The title <sup>(16)</sup>*arad-ekalli* following the patronymic of the recipients in this text is always written in the singular (ll. 9, 16, 21); it would therefore appear not to be their title, but rather their father's (see l. 16). Nidintu-Anu, with the title <sup>16</sup>*itinnu*, appears among the witnesses to the sale of a storage structure within the Irigal in 146 S.E. (MLC 2166) (seal: cf. Wallenfels 1994, nos. 749, 804).

Among the neighbors, Ardi-Ninurta, the parchment scribe, father of the present owners of the neighboring property to the south, is probably the same man, the son of Nidintu-Ištar, referred to in a property description in the Market City Gate district in a division of properties in 82 S.E. in which the present donor was a recipient (BRM 2 24 = MLC 2124A).

Among the witnesses:

# 1, Dumqi-Anu/Anu-uballit/Nanā-iddin/Hunzû, also witnessed the sale of prebendal shares in 95 S.E. (OECT 9 33), and the sale of a house in the Ištar City Gate district in 119 S.E., also written by the present scribe (BRM 2 32 = MLC 2171) (seal: Wallenfels 1994, no. 602). ## Comments

For the standard formulary for the sale of real estate, see Krückmann 1931, 24–38; Petschow 1939, 69–72; Lewenton 1970, 2–7; Doty 1977, 64–82.

Thirteen of the persons named in this transaction also occur in various combinations of from two to seven each in fourteen other transactions, of which ten concern real estate. In addition, nine persons, including eight of the preceding, occur individually in yet another twenty-six transactions, of which sixteen concern real estate.

The seller and guarantor, Ina-qibīt-Anu/Anu-aḥ-ittannu/Sumuttu-Anu/Kurī, is the husband of <sup>1</sup>Nūptu-Nanā/Balāṭu (BRM 2 43 = MLC 2179). Just two months earlier to the day, on 15.IX.153 S.E., <sup>1</sup>Nūptu-Nanā had purchased the very same piece of property from the very same man to whom it is presently being sold by her husband for the identical price! Two of the present witnesses, WI # 2 and WI # 7, were also witnesses to <sup>1</sup>Nūptu-Nanā's purchase.

The buyer, Idat-Anu/Dumqi-Anu/Ardi-Rēš,<sup>2</sup> a *kiništu*-priest,<sup>3</sup> who also bore the title of doorkeeper,<sup>4</sup> made several other real estate purchases, all recorded by the present scribe, within the Anu gate of the Irigal in 149 S.E. (BRM 2 39), in the vicinity of the Iṣtar

<sup>2</sup> The business activities of Idat-Anu, as well as of other members of his immediate family, and especially of his father, Dumqi-Anu, are treated extensively in Doty 1977, 270–302.

(BRM 2 41 = BiMes 24 35), and within the entrance gate of the Rēš, ca. 151–161 S.E., also witnessed by WI # 3 (MLC 2175). He was the recipient of land in the vicinity of the Istar City Gate in an exchange of properties with Nidintu-Anu/Rihāt-Anu/Mattattu-Anu, <sup>16</sup>*epiš dulli tiṭṭi ša bīt ilānī ša Uruk*, in 154 S.E. (BRM 2 45) (seal: Wallenfels 1994, no. 598).

Idat-Anu also purchased shares of the butcher's prebend in 150 S.E. (BRM 2 40 = FuB 16 30f. 9) and 155 S.E., (FuB 16 26f. 2 + AoF 5 82 [W15034i+k] = FuB 16 34f. 16): the first purchase was also witnessed by WI # 2 and WI # 5, the second by WI # 7; both were recorded by the present scribe. In 165 S.E., Idat-Anu leased a small portion of these shares to Nidintu-Anu/Dumqi-Anu/Ana-rabūt-Anu/Kurī (VDI 1955/4 157f. 8) (seal: Wallenfels 1994, no. 598). Idat-Anu also purchased shares of the brewer's prebend in 153 S.E., recorded by the present scribe (OECT 9 61).

Idat-Anu was guarantor, along with his brothers Nidintu-Anu and Anu-uballit—Zōros, to the sale of real estate in the vicinity of the Istar City Gate by his father in 166 S.E. (BRM 2 49 = AoF 5 86 10) (seal: Wallenfels 1994, no. 598). He also witnessed the sale of prebendal shares in 155 S.E., recorded by the present scribe (BRM 2 46 = MLC 2185 + FuB 16 37 22) (seal: Wallenfels 1994, no. 598), a division of real estate in the Adad temple district in 160 S.E. (NCBT 2304) (seal: Wallenfels 1994, no. 598), and a land sale in the vicinity of the Rēš, ca. 151–161 S.E., recorded by the present scribe (FuB 16 31 10).

Among the neighbors, Illut-Ištar <sup>16</sup>*epiš dulli tiṭṭi ša bīt ilānī ša Uruk*, Ana-rabūt-Anu/Anu-aḥ-ittannu <sup>16</sup>*gadāyya*, and Dumqi-Anu/Ušuršu-Anu/Dumqi-Anu/Hunzû are also referred to in the description of the present property when it was purchased by the present seller's wife just two months earlier (BRM 2 43 = MLC 2179).

Among the witnesses:

# 1, Anu-bēlšunu/Anu-aḥ-iddin/Anu-mār-ittannu/Ēkur-zakir, may have been the same man whose name appears, without his grandfather's name, among the witnesses to the sale of a house in the Istar City Gate district in 131 S.E., also witnessed by WI # 3 (BiMes 24 22 = MLC 2183 + MLC 2206) (seal: Weisberg 1991, pl. 51, U.E. # 2, Anu-aḥ-ušabši/Anu-uballissu/Ēkur-zakir, whose grandfather's name was Anu-mār-ittannu,<sup>5</sup> also witnessed the sales of houses in the Adad City Gate district in 128 S.E. (BRM 2 43 = MLC 2179) (seal: no. 12), the former also witnessed by WI # 3, the latter purchased by the present seller's wife from the present buyer and also witnessed by WI # 7. Anu-aḥ-ušabši also witnessed the purchase of shares of the butcher's prebend in 150 S.E. by the present buyer, also witnessed by WI # 5, and recorded by the present scribe (BRM 2 40 = FuB 16 30f. 9) (seal: no. 12), and a *donatio mortis causa*, ca. 151–161 S.E. [T4] = Wallenfels 1994, no. 991), the sale of a storehouse within the Rēš, ca. 151–161 S.E., purchased by the present buyer and recorded by the present scribe (MLC 2175) (seal: no. 84), and perhaps the sale of prebendal shares in 145 S.E. (VAS 15 33<sup>7</sup>).

# 4, Rabi-Anu/Lā-bāši/Rabi-Anu/Hunzû, also witnessed real estate sales within the Irigal in 126 S.E. He also appears, without ancestral name, in a property description in the Irigal temple district in 159 S.E. (VDI 1955/4 146f. 3).

The scribe, Anu-uballit/Ina-qibīt-Anu/Ēkur-zakir, wrote two astronomical texts, ACT 702 (124 S.E.), in which he is entitled <sup>10</sup>*āšipu Anu u Antu* ("exorcist"), and TCL 6 27 (124 S.E.). He also recorded some nineteen archival texts, including the present text. Anu-uballit's name, with his title <sup>16</sup>*tupšarru*, but without his ancestral name, also appears written in cuneiform above a seal impression on the fragmentary clay bulla FuB 16 72 18 (n.d.).<sup>10</sup> Since the seal impressions on clay bullae are normally without captions, and since scribes do not normally seal the documents they write,<sup>11</sup> the presence of his name on this bulla cannot as yet be satisfactorily explained.

## Comments

For the standard formulary for the sale of real estate, see Krückmann 1931, 24–38; Petschow 1939, 69–72; Lewenton 1970, 2–7; Doty 1977, 64–82.

Ten of the persons named in this transaction also occur in various combinations of from two to five each in seven other transactions, of which five concern real estate. In addition, six persons, including five of the preceding, occur individually in yet another twenty transactions, of which eleven concern real estate.

The seller, Kidin-Anu/Anu-mār-ittannu/Kidin-Anu/Hunzû, was the guarantor to the sale of another storehouse in the Irigal by his father to the present buyer in 160 S.E., also witnessed by WI # 1 and WI # 2 (BRM 2 48 = AoF 5 85 4 + AoF 5 85 5<sup>2</sup>) (seal: Wallenfels 1994, no. 156).

<sup>2</sup> Note that the fragments AoF 5 4 and AoF 5 5 were actually excavated from the Irigal during the 1933/34 and 1935/6 seasons.

## Text X

The buyer, Dumqi-Anu/Ardi-Rēš/Dumqi-Anu <sup>16</sup>*atū makkūr Anu*,<sup>3</sup> purchased a door-keeper's prebend in 124 S.E. (BRM 2 34), and real estate in the Ištār Gate district ca. 125–137 S.E. (OECT 9 56), and within the Irigal in 160 S.E., the latter from the present seller's father, guaranteed by the present seller, and witnessed by WI # 1 and WI # 2 (BRM 2 48 = AoF 5 85 4 + AoF 5 85 5). Dumqi-Anu sold real estate in the Ištār City Gate district in 166 S.E. in a transaction recorded by the present scribe (BRM 2 49 = AoF 5 86 10) (seal: Wallenfels 1994, no. 657); he was referred to in boundary descriptions there in 133 S.E. (BRM 2 37 = BiMes 24 23) and 151 S.E., the latter transaction also witnessed by WI # 3 (BRM 2 42 + FuB 16 28f. 6 + AoF 5 82f. [W15034h] = MLC 2180 + AoF 5 88 24). Dumqi-Anu also witnessed sales of real estate in an unknown district in 143 S.E. (VAS 15 34), and within the Irigal in 159 S.E., recorded by the present scribe (VDI 1955/4 146f. 3) (seal: Sarkisian 1955, fig. 4 [L1]), an exchange of houses in the Ištār City Gate district in 154 S.E. (BRM 2 45) (seal: Wallenfels 1994, no. 409), and sales of prebendal shares in 155 S.E. (BRM 2 46 = MLC 2185 + FuB 16 37 22) (seal: Wallenfels 1994, no. 409), and ca. 151–161 S.E., recorded by the present scribe (Oppert-Ménant Doc.jur. 315ff. 5).

The neighbor, Mušallim-Anu/Anu-ab-ušur, a descendant of Hunzû,<sup>4</sup> also appears in boundary descriptions of two storehouses within the Irigal, one purchased in 160 S.E. by the present buyer from the present seller's father, guaranteed by the present seller, and witnessed by WI # 1 and WI # 2 (BRM 2 48 = AoF 5 85 4 + AoF 5 85 5), the other purchased ca. 151–161 S.E. (FuB 16 38f. 25). Musallim-Anu was also the lessor of prebendal shares in 157 S.E. (OECT 9 62).

Among the witnesses:

**1** Elliptical gem. 13 × 14+. Male bust facing profile right, ear and beard in shape of a pigeon facing left; headband.

Anu-mār-ittannu/Tanittu-Anu//Aḥ-ūtu:

21.X.119 S.E., witness to sale of prebend, text VI T2.

Cap. *un-qa* <sup>md</sup>60-<sup>r</sup>DUMU<sup>r</sup>-[MU]-<sup>r</sup>nu<sup>r</sup>.

Anu-mār-ittannu also used Wallenfels 1994, no. 1051 on 17.VII.150 S.E. (BRM 2 40 B2).

The renderings of facial features in the shapes of birds are seen on a sixth century Phoenician scarab (Zazoff 1983, Taf. 21, 2), and among the seal impressions in a "collector's cabinet" from an Achaemenid period coffin at Ur (Legrain 1951, nos. 720–21). Other examples from Seleucid Uruk occur on both bulla (e.g., Jordan 1928, Taf. 87d) and tablet impressions (e.g., Wallenfels 1994, no. 13), as well as on bulla impressions from Seleucia on the Tigris (unpublished, courtesy A. Invernizzi).

**2** Elliptical gem. 17 × 14+. Beardless male head facing profile right.

Bani-apli/Nanâ-iddin/Bani-apli//Luštammar-Adad:

Publ. Wallenfels 1994, pl. 1, no. 7 (NCBT 2305 [B3]).

Compare Weisberg 1991, pl. 17, U.E. [T1], used by Bani-apli on 10.—.141 S.E. (BiMes 24 10). Compare the similar slender neck, long pointy nose, thin lips and small chin with portraits of the youthful Antiochus III on coins from Seleucia (Newell 1941, pls. 18–20, *passim*) and Susa (Newell 1941, pls. 29–31, *passim*) (see further Fleischer 1991, 31–33, Taf. 15, c–e). Note the absence of the diadem (indicative of both royalty and divinity) on this and several other heads and busts with features otherwise reminiscent of coin portraits (e.g., Wallenfels 1994, nos. 4, 6, 18, 19).

**3** Ellipse. 11 × 14. Female head facing right, wears hair gathered in bun and diadem; raised linear border.

Compare the prominent bridge of the pointed nose and pointy chin with those features in portraits of Arsinoë III on coins issued by her husband-brother Ptolemy IV Philopater (e.g., Richter 1965, fig. 1828), and on a gold ring bezel in the Hermitage (Richter 1968, no. 641); see also the portrait of a queen on a convex gem in Geneva (Vollenweider 1976, no. 35). Invernizzi); cf. jugate portraits of Demetrius I and his wife Laodice on contemporary coins (e.g., Fleischer 1991, Taf. 30, d-g). Already in evidence among the tablet impressions from Achaemenid Nippur (Bregstein 1993, no. 588), confronted human heads are most popular on seals and coins of the late Roman Republican (Zazoff 1983, Taf. 79,6) and early Imperial periods (e.g., Vollenweider 1976, nos. 187-88, 232, 239, 243). Publ. Sarkisian 1955, fig. 2 (VDI 1955/4 139ff. 1).

This portrayal of a worshiper may reflect Herodotus' (I, 195) observation that every Babylonian "owns... a walking stick specially made for him." The latest example of this motif occurs in a tablet seal impression (Boehmer 1984, Taf. 29c) on the latest archival tablet from Uruk (BaM 15 274f.), dated 9.XI.203 S.E., i.e., some forty years after the Arsacid capture of Uruk. See additionally Wallenfels 1994, 21; and nos. 58-61, 61:B. For examples on Hellenistic bullae from Seleucia on the Tigris, see Invernizzi 1994, 357, figs. 2, 3.

<sup>1</sup> The scribe captioned two impressions, T2 (no. 4) and B3 (no. 33), with the name Ina-qibīt-Anu. One of these seals belongs to WI # 3: Ina-qibīt-Anu/Dumqi-Anu/Ina-qibīt-Anu//Hunzû, the only witness listed with such a personal name; the other seal must belong to WI # 1: Dumqi-Anu/Anu-uballit/Nanâ-iddin//Hunzû, whose personal name does not appear in any seal captions. 23.VIII.87 S.E., witness to quitclaim, text III (= BRM 2 27) L3.

Publ. Clay 1913, pl. VI, no. 162; Wallenfels 1994, pl. 6, no. 106 (BRM 2 27 L3).

Neither impression of this convex gem was sufficiently deep to render all of the details at the top edge of the seal. Compare the similarly posed and rendered figure on a contemporary bulla impression from Seleucia on the Tigris (Invernizzi 1976, 177, fig. 5, row 4, far left).

8 Ellipse. 7.5 × 13. Persian woman, hair in long pigtail with globular terminal, wearing full-sleeved chiton-like dress, holding ointment jar(?) and flowers(?), stands profile left; raised linear border.

Idat-Anu/Ilut-Anu/Dannat-Bēti/Luštammār-Adad:

18.X.124 S.E., witness to gift of house and slave, text VIII B2.

Cap. *un-qa*<sup>mi</sup>i-dat-<sup>d</sup>60.

A number of late fifth and fourth century Greek and Graeco-Persian gems<sup>3</sup> as well as several late fourth and third century gem impressions<sup>4</sup> display a standing Persian woman holding a variety of jars, lids, cups, flowers and/or wreaths, either in individual studies or with a Persian man. The present seal may be an heirloom, although it cannot be excluded that this is an early second century copy of an older piece: the stiffness of the pose is not unlike some Graeco-Persian types and the well modeled figure is somewhat unusual among the Hellenistic Uruk tablet impressions, especially those with raised linear borders (e.g., Wallenfels 1994, pl. 59, nos. 1038–43).

9 Pointed ellipse. 9 × 18. Bearded male wearing full length garment stands profile right, body bent rearward at waist, weight on forward leg; indistinct object draped over shoulder, club held downward in front.

Ana-rabūt-Anu also used Weisberg 1991, pl. 24, Lo.E. [L2] on 10.XII.137 S.E. (BiMes 24 13).

This motif recalls the nude Herakles with the pelt of the Nemean lion over his arm or shoulder and a club in his hand (e.g., Boardman 1970, pls. 368, 441).

The Seleucid Uruk seal cutters probably knew of the dolphin motif only from gems and coins imported from the west where it enjoyed considerable popularity. They likely did not distinguish this marine mammal from fish, and thus did not understand the western convention of rotating the horizontal flukes into view, assuming them to be the same as the vertical tail fin of a fish; thus they occasionally added fish-like dorsal and anal fins to their representations. Round four-spoked chariot wheels were occasionally depicted on sixth through fourth century Western coins (e.g., Brett 1974, nos. 47, 1018, 1036–38, 1168, 1374). Such wheels may represent the punishment of Ixion: on a fifth century Etruscan scarab (Richter 1968, no. 853), Ixion is shown bound to a elliptical wheel, apparently distorted to accommodate the overall shape of the gem.
