According to this article that I read recently, children with artistic talent have certain characteristics in common. Looking around the bay area, you couldn't prove it by reality, but here goes. The gifted ones are: intelligence appreciably higher than average; skill in a particular area; sensitivity; keen perception; a good imagination; capacity for original thought; strong curiosity about things; marked interest in words and ideas; good vocabularies!; a taste for reading; a tendency to seek older companions among children and to enjoy the company of adults; strong desire to excel; rapid comprehension and ability to follow directions easily; a taste for collecting and classifying things; good memories!; good sense of humor and cheerful! dispositions; restlessness, inattention, tendency to disturb or annoy those around them; poor spelling!, careless handwriting, or inaccurate arithmetic; laziness in completing or handing in assignments; indifference toward classwork they find uninteresting; outspoken criticism both of themselves and others; And they learn to walk and talk before entering school. Neurotic tendencies are a liability and sap the creative energies and lowers the quality of any kind of endeavor.. Talented children are supposed to be resourceful in play and participate more vigorously than other children. They also recover from the effects of quarreling more quickly and hold fewer grudges!. And there you have it, whatever it is--straight from EAR.

**REAL ESTATE**

EAR needs someone or some people to get ads for us. Julian White says we should offer them one third of the ad price in return for getting the ads. At this point, I think this is necessary, so anyone who wants to take us up on this, just supply the camera-ready ad, and after we're paid, we'll pay you. For more talk, call me--654-1378.

The Cabrillo Festival runs Aug. 15-18 and the 22nd-25th every night and some days, and includes a class taught by Bob Hughes thru U.C.S.C. (if you want credit), an afternoon discussion about women composers on Aug. 18, 1pm?, as well as concerts. The composers representd are: Aug. 15--Clara Schumann, Leonora Orsina, Barbara Strozzi, Victoria Bond, Beth Anderson, Max Lifchitz, and Franz (Peter) Schubert-- Aug. 16--MADERNA, Chavez, Schubert-- Aug. 17--Giovanni Gabrieli, Ruth Crawford, Bond, Lifchitz, Schubert--Aug. 18--Ives and Schubert--Aug. 22--Ives, Mozart, Anderson (new piece=JOAN), Netty Simons Aug. 23--Lou Harrison, Anderson, Schubert, Ginastera--Aug. 24--Hindemith, Mozart, Ives, Lifchitz--Aug. 25--Henze & Schubert. Dennis Russell Davies is the new conductor and he's doing something new to the world, i.e., lots of women composers and new music, or at least newer than 1900, on every program, so it's hard to avoid. NICE. It's pretty down there too, so if you're looking for somewhere to go, this is it. If anyone does go and wants to review whatever they attended, please do it and send it in: 991--39th St. apt. #1, Oakland, Ca. 94608. Deadline is Aug. 26.

## TOWER OF POWER

for organ / tapes

Hold as many keys and pedals down as possible, using only your body  
At as loud an amplitude as possible, using both your ears and equipment to decide  
For a minimum of five minutes, using your self and your audience to decide  
Changing timbers a minimum of five times, without letting any notes up  
Avoiding any sharp contrasts, allowing your organ to dictate the possibilities

Four rehearsals of the piece are to be taped and played back in exact synchronization  
with the performance through four speakers placed symmetrically around the church,  
taking into consideration the origination of the organ sound. All should blend,

Live Lice is the title of a new 60 minute cultural news program, allegedly "laced with satire and parody". It's on T.V. in Calgary, Alta., Canada, so we can't see it but it's good to know it's happening somewhere. Elsewhere in this EAR, Clive (who is doing it) says it reminds him of EAR on TV. Good show!

I just went to Hawaii last month, and like everyone else who goes there and looks for a little bit of new music, I found Peter Coraggio. He's alive and well in his studio in Honolulu and has put out 5 records on his own label-SINERGIA. So far, they are Hawaiian R'n'R. If you'd like to hear some of this, especially, THESE TRAILS, write him: 1229 Waimanu St., Honolulu, Hawaii 96814. He left New York nine years ago to teach there for one year and hasn't been back! They do a newsletter called MUSEPAPER--ask for copy+

Mars Inc., outwardly a candy company, makes "M&M's" and their logo is a C inside a circle. So many people in music believe in M&M, you'd think Martian Art would cover the world!--B.m.A.

Gordon Mumma says EAR is Electric Art Rehabilitation. Steve Reich says Ear Magazine is a feminist monthly. What does that mean?

There is a real good case maker in San Francisco. He makes carrying cases and shipping cases (can be the same item) and he can fix your tape recorder or your mandolin right up for travel. His name: Sam Savano, 320 W. Portal Ave., S.F. (681-4249). If you go to him, tell him you read about him in EAR and ask if he wants an ad from us.
