ALA. OFFICIALS REFUSE TO ANSWER ON MURDER CHARGES

ILD Names Murderers of Ralph Gray, Davis

Demands Arrest, Prosecution, Death Penalty For All Lynchers

Solicitor C. H. Vann, of Dadeville and Sheriff Young of Tallapoosa county, tried to laugh off charges made by the International Labor Defense that Buddy Davis, Negro share-cropper had been lynched and his body sunk into the artificial lake of the Alabama Power Company.

Investigations carried on by the I.L.D. in Tallapoosa and Lee counties proved that Ralph Gray was murdered by deputies on the way to jail and that Buddy Davis had mysteriously disappeared. Chief of Police Wilson had said that he had gone to "pick stovewood", which in Alabama language means he had been lynched. Members of the lynch mob boasted of the fact that he had been sunk in the power company lake.

I.L.D. Telegraphs Demands

The International Labor Defense, from its central office in New York, sent a telegram to Sheriff Young, as soon as it had discovered the facts, demanding the immediate arrest and prosecution of all those who were in the posse which murdered Ralph Gray and lynched Buddy Davis. The only comment made by Solicitor C. H. Vann was that it "was news to him," altho the members of the mob are well known and named by the I. L. D.

"We demand immediate arrest and prosecution of Burt Brown, (landowner), with death penalties for murderers of Davis and Gray. International Labor Defense investigation proves no evidence against jailed members of Share-Croppers' Union. We demand their immediate release."

Names Mob Leaders

On receipt of the telegram, Sheriff Young, leader of the murderous posse, was even afraid to commit himself to an answer to the demands and statements of the I.L.D. but instead said, "If they are so interested, then let them come down here about it." Despite this evident lynch threat, a representative of the I.L.D. has already been at Camp Hill, talked to the croppers there, and obtained a full first-hand report.

The I. L. D., Southern District demands the immediate arrest and prosecution of all known members of the mob. It names as leaders of the posse which beat Tommy Gray and his family and which murdered Ralph Gray, Deputy Sheriff Ware, Sheriff Young, the landowners, Burt Brown, Ramsay Brown and Henry Bacon.

The International Labor Defense, Southern District, has arranged to supply relief for the families of the croppers in jail. Efforts are being made to obtain the freedom of the croppers on bail, pending the hearing which is scheduled for the end of August. A special session of the grand jury is being called to indict the croppers.

Workers' protest at the lynch terror and the effort to break up the Croppers' Union is growing thruout the country and thruout the world.

Workers Thruout World Protest War Preparation

Demonstrate in Charlotte Despite Police Ban

BULLETIN

CHARLOTTE, N. C.—A demonstration against boss war and for the defense of the Soviet Union, called by the Communist Party and the Young Communist League, was held here, despite the refusal of the police to grant a permit. Over 250 white and Negro workers participated in the demonstration and the parade. Young Pioneers and Young Communist League members sang revolutionary songs. There were five speakers, of whom two were members of the Y. C. L. The demonstration was marked by great enthusiasm.

Incomplete reports appearing in the boss press show that huge demonstrations of workers were held thruout the world on August 1st to protest against the boss preparations for war against the Soviet Union.

In New York City, tens of thousands of workers demonstrated in Union Square and took a pledge to defend the Soviet Union in case of an imperialist attack against her. A telegram was read here from an anti-war demonstration in London which told how the workers there had taken the same pledge and called upon the American workers to do likewise. In Boston, 12 workers were arrested when police tried to break up the demonstration. In Los Angeles, police used tear gas bombs and clubs against the workers demonstrating in front of two big factories, arresting twenty-five.

In Paris troops patrolled the street, large reserves were kept on hand, and airplanes flew overhead to report any gathering of workers. Despite this there was a march by workers on the Colonial Exposition in Paris which was broken up by police. In

Put Furniture Back Twice In Same House

Dr. Stevens and Stool Pigeons Spy on Workers, Cause Arrest

Determined to stop evictions of unemployed workers in Chattanooga before winter sets in, workers of Bushtown, Churchville and Rosstown sections of the city have started a mass campaign by putting back the furniture of one evicted worker two times. Andrew Brazier and wife, at 1914 Garfield Ave., were set out of their house because they could not pay rent Thursday of last week. Workers called together by the Scottsboro Defense Block Committees in that section, put the furniture back the same evening.

Put Furniture Back Twice

The next day fellow-worker Brazier was again evicted, altho this time the sheriffs had not read him out and given him the customary ten-days notice. The same day a large crowd of workers gathered and put the furniture back again.

Mrs. Miller, Brazier's colored landlady and thoroughly despised by many colored workers for her viciousness, is working together with Dr. Stevens of the Ministers' Alliance and a petty stool-pigeon named Richard Coates, in an effort to get Brazier out of his house and have him arrested. Comrade Brazier is known as being very active in the defense of the Scottsboro boys and Dr. Stevens, arch-traitor of the boys, is trying his best to have Brazier evicted again and arrested. Stevens uses Coates, who lives across the street, as a spy, reporting everything that is done back to him.

A Lecture On "Reds"

After Comrade Brazier's furniture had been put back a second time, sheriffs appeared at his house, arrested him and his wife without a warrant—not even knowing whether Mrs. Brazier was the right woman—and took them before Justice of the Peace Thrasher. Thrasher told Comrade Brazier that if he is not out of the house by Monday, Aug. 3 at 2 p.m. he would have him evicted again and arrested for "breaking in." He gave him a long lecture against the "reds" about whom Brazier asked the squirming few questions. Thrasher explained to Brazier and his wife that a "red" is one who says that the white and Negro workers must get together to put back the furniture of all workers and caused lots of trouble (for the bosses). Brazier's reply was that if that was the meaning of a "red" he guessed he was one, for he had nowhere to go, no money with which to move or rent another house, since

(Continued on Page 2)

Low Farm Prices ---- More Starvation

Cotton and tobacco prices have followed wheat on the decline to the lowest prices in a century, as was to be expected with the growth of the crisis. If there was any doubt left in anyone's mind about a winter of mass starvation for the farm toilers on top of a summer of want and ten years of privation, that doubt should now be dispelled.

When the South Georgia bright leaf tobacco went for sale on the warehouse floors last week, the average price was between seven and eight cents a pound, a decline of about four cents on the pound from the ruinous prices of last year. The first cotton of the 1931 crop sold in Georgia at 7 1-2 and 8 1-2 cents a pound, between two and four cents below last year's prices. On the Atlanta markets cotton is selling at 7 1-2 cents a

pound. By the time the bulk of the cotton gets on the market 1931 cotton will bring five and six cents a pound, as compared with about 20 cents in 1928.

These prices mean complete ruin for the small farmer who is already buried beneath a mountain of debts, if he were able at all to pull thru last year. It means that additional thousands of small farmers will lose their farms and belongings and face a winter of starvation.

For the croppers and tenants these low prices mean that even if they had the slightest chance of seeing themselves clear at the end of the season with something to put by, no matter how little, for the winter, they are hopelessly lost. After a summer of hard labor the cropper family will be left entirely penniless.

In many sections of the South the landowners have already cut off the meagre food allowances. There will not be a cent of cash or a drop of food for the cropper and tenant families when the cotton is picked.

The croppers at Camp Hill, by organizing a Union and putting up a fight, have shown the only way out for the poor farmers and tenants. The only way to keep from starving to death is to organize and fight for cash settlement at cotton picking, the right to sell the crop wherever and however they please, a moratorium on all debts, interest and ground rents. Demonstrations for relief must be held in front of the big landlord's houses and the county seats. Action, and quick action, will save the poor farmers and their families from starvation.

Lynch Negro Worker

NEW ORLEANS.—Oscar Livingston, 22-year-old Negro worker, was taken from jail at Pointe-a-la-Hache, La., by a mob of masked white men, taken to a remote spot and riddled with buckshot, early last Sunday. Livingston was charged with the usual lynch law excuse of "attacking a white woman." No action has been taken against the mob, or the officials who permitted the lynching.

Cal. Cannery Workers Strike Against Cuts

SAN JOSE, Cal.—More than 2000 cannery workers here are striking for higher wages under the leadership of the Agricultural Cannery Workers Industrial Union, affiliated with the Trade Union Unity League. The California Packing Corporation No. 3 plant is completely shut down and part of the workers of No. 4 plant are out. Many more canneries are coming out.

The workers are holding mass picket lines and defy every effort of the police to break them up. On August 1st the workers held a mass demonstration in front of the city jail, where 11 strikers were imprisoned. When the police attacked them, the workers threw up barricades in the

streets and defended themselves, driving the police off.

The strikers are demanding 40¢ an hour instead of 30¢, time and a half for overtime, equal pay for equal work, free transportation by canneries for women workers, no discrimination against active Union members, reinstatement of all workers fired because of union activity and recognition of the Union.

There are 6,000 workers in the 16 canneries in this section, 65 percent of them being women, and 75 percent are between the ages of 16 and 25. The workers will not permit the bosses to fool them back into the canneries until they have won their demands.

FLA. BOSSES TRY TO STOP ORGANIZING

TAMPA, Fla.—Police and detective agencies, acting for the tobacco manufacturers and other bosses in this area, have launched a campaign of terror and arrest against the Tampa and St. Petersburg workers, because these workers are organizing against wage-cuts in the tobacco factories, protesting the Scottsboro and Camp Hill outrages and fighting for unemployment relief.

C. W. Nickel, superintendent of the notorious strike-breaking Pinkerton's National Detective Agency, has just gotten thru with an "investigation" into Communist activities. Police have confiscated literature in Ybor City, center of the Spanish speaking workers employed in the tobacco industry and have also found literature in the factories themselves. Police raided a cabin in a tourist camp near Tampa and confiscated a large amount of revolutionary literature. Al W. McBride, Trade Union Unity League Organizer here, was arrested and then discharged.

Similar "investigations" are being carried on in St. Petersburg, where houses have been entered and literature confiscated. T. E. Carskdon, a mechanic was arrested here and is being held. Literature has also been confiscated in Fort Lauderdale and Miami. Raids, confiscation of literature and arrests are not and will not stop the growth and spreading of the revolutionary movement in the South, which is striking new roots daily in all sections.

Chattanooga Workers Stop Eviction

(Continued from Front Page)

both he and his wife had been unemployed for a number of months. He told the squire that he could not move on Monday because he wouldn't have the money then either. Thrasher then threatened some more. But on Monday Brazier didn't move and did not even bother to inform the Squire about it.

Must Stop Evictions

As a result of the fight put up by the workers in his neighborhood by putting the furniture back Brazier is still in his house on Garfield avenue. The sheriff has threatened again to come back and put the furniture out again and arrest him, in which case the workers' organization will be ready to get Brazier out on bond immediately, put his furniture back again, and continue doing this in every eviction case until the bosses are forced to stop evictions.

Wholesale evictions of unemployed families are taking place thruout the city, many workers are also being forced to move on eviction notices.

Turnips for Chattanooga Jobless

Mayor Bass of Chattanooga expects to feed the thousands of unemployed workers of Chattanooga with turnips this winter from a few-acre patch. He evidently thinks that turnips will solve the unemployment problem and keep the unemployed and their families from starving this winter.

That is the only suggestion he had for relief, outside of some free coal from the convict mines, altho he admits that unemployment is worse than last year and that this winter will be a much harder one. In fact, he has helped increase unemployment himself and decrease wages by laying off a large number of workers on city jobs and cutting wages.

Turnips and a few chunks of convict-labor coal, or wood chopped in Mayor Bass' back yard is not going to keep the workers from starving. A mass movement must immediately be begun to organize the workers of Chattanooga to force some real relief from the city. Demands are already being formulated by neighborhood committees of the unemployed. These demands, so far, include free water, free rent, free light and gas and heat for the unemployed, no evictions. Demands will also be drawn up for cash relief from the city, for lodging for the unemployed.

Workers Over World Protest Bosses War

(Continued from Front Page)

Marseilles, France, workers demonstrated despite the police ban, and in the fighting which followed one worker was killed.

Although the demonstrations were forbidden by the police in Germany, they were held in a number of cities. In Berlin there were two long battles with the police and in Hamburg two fascists were reported to have been killed in the fighting. Two windows were broken in the Berlin police headquarters.

In Vienna 1,000 workers were arrested on police raids during the last few days to prevent the August 1st demonstration. There were two demonstrations held in Havana, despite the brutality of the dictatorship.

The newspapers in the Soviet Union published documents on August 1st taken from the archives of the tsarist government, showing how the Russian bosses had deliberately prepared for the Great War together with the other capitalist countries.

Neighborhood committees are being organized in all parts of the city to lead the fight against evictions and for free rent, free water, free light, free gas for unemployed workers. Only by putting back the furniture of all evicted workers can the workers stop these brutal evictions.

Communists In China Give Land To Poor Farmers

Communism in China is no longer a dream but an actuality in at least two large provinces in the south, Kiangsi and Hunan, according to T. V. Soong, finance minister in the Nanking government and bitter enemy of Communism.

According to Soong, the government has consistently censored, suppressed or distorted reports coming from the Communist front.

He admits that the Communists held their territory in their provinces and made gains which seriously threaten the Nanking government. He calls on all "patriotic" Chinese to defend the national government in what he describes as a life and death struggle for its existence.

Communists have already instituted far-reaching land reforms in the country which they control. They have confiscated the estates of the large landowners and are administering them through Soviet councils. They have been burning leases and title deed and redistributing land so as to favor members of the workers' and peasants' army and non-land holding peasantry. They have instituted a graduated single tax to replace all other taxes.

They have undertaken, further, a big program of agricultural reconstruction including the building of large irrigation systems, and are establishing farmers' cooperatives and banks for the extension of farm credits at low rates of interest.

Communist organizations in these provinces include not only the army but groups of Young Communists, Children's Corps, and two large groups of women.

The Nanking government supported by foreign influence in Shanghai has repeatedly attempted to exterminate the Communists, and in the territory which it controls has carried out wholesale executions. The Red Aid Society of China reported over 37,000 were slaughtered in a single month last year. But military expeditions against the Communist strongholds have regularly failed, for the peasants are sympathetic to the Communists and the government troops show a strong tendency to desert and go over to the Red Army.

Northwest Farmers Put Up Stiff Relief Fight

MINOT, N. D.—Farmers of the Dakotas and Montana are beginning their mass fight now for relief before the first frost sets in. With wheat selling at 30 cents a bushel it doesn't make any difference to them whether they sell or not, for harvesting would only increase their debts, which they cannot hope to pay off, anyhow. Like for the poor farmers in the cotton and tobacco country of the South, the Government is doing nothing in the way of relief, satisfied to let hundreds of thousands of farm families starve and freeze to death this winter.

The Northwest farmers, under the leadership of the United Farmers' League, a revolutionary farmers' organization, are mobilizing a mass campaign for immediate relief. At a meeting of several hundred farmers in Bowbells, N. D., the farmers decided to demand that the county commissioners divert funds now being spent for a war memorial building and use these funds for the purchase of food and clothing for the poor farmers. They elected a committee to go before the county commissioner to present their demands. The county commissioners called in a lawyer to read the law concerning paupers, on the basis of which law they said that the farmers demands could not be granted.

When the farmers heard that they were considered paupers by the commissioners, who would not do a thing for them, they held a great meeting

of protest before the courthouse. The farmers resolved unanimously not to put any more trust in county officials or business leaders, but to organize the United Farmers League in an ever wider circle and force their demands from the county.

Another great meeting took place in the courthouse at Stanley, N. D. Farmers filled the auditorium, the jury seats and even the judges' bench. They adopted the full program of the United Farmers' League. They set up machinery for surveying the drought-stricken counties to determine what each farmer requires to get through the winter. They elected committees for the distribution of relief supplies in each community and planned an appeal to the farmers in the Red River Valley and South Dakota, where they are making a crop, to contribute carloads of food, rather than sell at ruinous prices for the benefit of the bankers. There in the courtroom they passed resolutions agreeing to pay no taxes, no interest on mortgages, but to use what little cash they have left for community relief. Later another group of farmers met at Brush Lake Mont., to organize further. Nine hundred people were there, farmers who had come long distances in Model T Fords which had no licenses. Many had come more than two hundred miles for they realized that the farmers' only hope is to build a close organization which can act fast.

Chi. Police Murder Three Negro Workers

(Continued from Front Page)

white, are determined to stop evictions in Chicago.

The N.A.A.C.P.—the same organization that is helping the boss class of Alabama railroad the nine Scottsboro boys to the electric chair and send the Camp Hill croppers to jail—is directly responsible for this brutal assault. After four families had been put back by the Unemployed Council of Chicago, local N.A.A.C.P. leaders called upon the police to prevent the workers from putting the furniture of evicted unemployed workers back into their houses. At this meeting was also a representative of the Chicago Defender, a Negro newspaper, which tries to pass off as a friend of the workers.

In the week previous to the police attack, thousands of workers, rallied by the Unemployed Council, put back the furniture of four families who had been evicted. Over 2,000 workers demonstrated in front of a house from which Arthur Martin, unemployed laborer, had been evicted and forced the police to take up a collection from among themselves, pay the landlord his rent, and put Martin back. The same happened in the case of three other unemployed workers. Both the white and black workers are continuing their fight against evictions and for unemployment relief.

Illiteracy Highest, Wages Lowest in S. C.

GREENVILLE, S. C.—The Bureau of Census figures, for 1930, just released, show South Carolina as the state having the most illiteracy in the United States. 14.9 percent of the population, or almost 200,000 persons, cannot read or write.

The Bureau of Census does not of course, state the reasons for all these workers and their children being deprived of an education. The wages are so low in S. C. that little children are forced into the mills and other factories to try to offset starvation. And thousands of children who are not working are too poor to go to school—they have no clothing and shoes.

No attempt is made in capitalist America to give workers' children a chance to get out of the mills and go to school, or to give their parents high enough wages to buy them shoes and clothes. Quite a contrast to the U. S. S. R. (Soviet Russia) where both children and adults have every encouragement and help in getting an education, and where already great strides have been made since the revolution, in wiping out illiteracy.

RACE HATRED TRIAL AGAINST 3 NEGRO BOYS

By a Worker Correspondent
Danville, Va.

Three Negro boys, who were arrested on July 16, charged with assault, resisting arrest and most everything in the calendar of crimes, because they dared to defend themselves against the attacks of sneering white superiors, were turned loose yesterday.

During the so-called trial, it was so clear that the Negro boys were not to blame for the fight which almost resulted in a race riot that the judge stated the evidence was too "contradictory" to hold the boys.

The affair started when, on the afternoon of July 16, Marvin Samuels, a white boy, rode his bicycle up and down James Street, teasing and jeering at a Negro boy. The Negro boy resisted this insult. Then Samuels ran for some of his white play mates to help defend his "white superiority." In the meantime other Negro boys, who saw what had happened came to the rescue of their comrade. Pretty soon a mob of more than five hundred Negro and whites had gathered and were participating in the fracas, which only quieted when police officers arrested the Negro boys.

The Samuels boy, who started the whole thing, is known as a pest in his neighborhood, always looking for a skirmish.

The whole case was so clearly a case of race hatred and a frame-up on the Negro boys the judge could not do otherwise than turn them loose.

—A Worker.

Keep Eyes On Supers and UTW

Danville, Va.

I just read in the Southern Worker about Mr. Broom one of our supers here. This sure was good. The only thing is the one who wrote this ought to have included Mr. Jimbo Hall along with Mr. Broom. They are both supers in mills here and they are both bitter enemies of the workers. They both did all they could to break our strike. And now it is rumored that Jimbo Hall has also got his notice to leave his master's employment.

We workers are glad of it. Let these two lick spittles and willing tools of the mill company get out and starve a while and next time they won't be so willing to break a strike when starving workers are fighting for bread and butter for their wives and babies.

Maybe they can get a job with Gorman and help set up a scab organization so as to sell the workers out. Maybe, but they will have to go some other place to try their stunt, for we have been fooled once by this bunch. We know what the U.T.W. outfit is for. We know them to be sell-out tools of the bosses. That is why we workers are now organizing into the National Textile Workers Union. We know that the N. T. W. U. is the only organization that fights for the working class. If we had had the N.T.W.U. here last winter we would have won our strike.

—A Worker.

State Cossacks Attack Miners

After an attack by state troopers on a picket line in the struck coal fields of Pennsylvania. Tear gas, clubs and rifle butts are used freely against the miners fighting starvation. The photo shows one striker overcome by tear gas. The miners can protect themselves from these attacks but they need food. Send all funds and food for relief to the Striking Miners' Relief Committee, 611 Penn Ave., Room 205, Pittsburgh, Pa.

Begged For 8 1-2c Hour Job-- Nothing Doing, Kills Himself

By a Worker

Danville, Va.

Today Wiley C. Lynch was buried. He was 56 years old and had fired a revolver bullet thru his head. For months Lynch had been out of work. He looked everywhere for employment but always it was the same old story. "No help wanted." Lynch was a mill worker and had given the best part of his life to the mill bosses here in Danville. But they had sapped his life—had ground his life into profits and they no longer had any use for him.

He leaves a wife and children. They are unemployed and hungry. He could not bear to see his family starve and so he ended his own life.

For years Lynch had been employed at the Dan City Silk Mills, but recently he lost his job. Younger blood, ones who could better stand the severe speed-up have taken the place of the older hands.

Several times recently Lynch had gone to the mill and asked for his job, but nothing doing.

When the boss heard that he had

committed suicide he said: "Well I guess we are rid of old man Lynch now for a while."

This is the reward the workers get for slaving for the bosses all our lives.

In the Dan City Silk Mill where fellow worker Lynch worked before he lost his job there are the worst slave conditions in this section. Girls work ten hours per night, six nights a week for the sum of \$5.00—an average of 8 1/2 cents per hour for night work. They go to work at 12 o'clock Sunday night and work until midnight Saturday.

It is for one of these slave driving jobs that fellow worker Lynch had been begging the boss in order to keep his wife and children from starving. Many other workers are in the same plight.

The National Textile Workers' Union is now organizing the workers in the Dan City Silk Mill and preparing them to join the Northern Silk workers in a general strike against these miserable conditions that force workers to choose between suicide or death by slow starvation.

If It's War, Let It Be Our Own

By a War Veteran

Birmingham, Ala.

Here are some of my experiences while I was in service in the last war. Sometimes I was so hungry I did not know what to do, because I could not get to the meals, we were watching for the enemy. We had to stay close to be safe. We had to sleep on the ground, sometimes had to billet in a place with bushes lined up over mud and water to try to sleep.

I was in France for 11 1/2 months. I do know something of the hardships there. I am now protesting against all this brutal treatment. I am not going to fight against myself, or my race or my fellow workers any more. We thought we were fighting for the betterment of all workers, but when it came to a showdown we were fighting for the rich man and the big boss.

They promised us soldiers that if we win the victory we would have equal rights, one no more than the other. So what we soldiers should do is to live up to our obligations by fighting against preparations for war, by fighting for equal rights.

We don't mean to go anywhere to fight any more. We must fight our enemies right here. So let's stand together, fighting for our rights as militant soldiers.

Warns Farmers Against Fakes

By a Worker Correspondent

Ruskin, Fla.

Dear farmers, please note the contents of this clipping. (The clipping is about the fake "live-at-home" campaign being carried on by the bankers and the Georgia Department of Agriculture, which promises to the farmers "even a happier future than the Soviet Five-Year Plan.")

I want to warn you that this kind of talk is just plain propaganda, lies against the Soviet Union, to make you farmers think there is a brighter future. Such organizations and co-operatives that are backing this plan are just trying to do up the Georgia farmers, so that they can get the rest of what you have.

Don't believe that the bankers will ever take care of the small farmers, only just long enough to bait him until he gets the chance to rob him.

If you farmers mean to do something with a future join hands with the workers and the Communist Party and fight off starvation. For it is just plain horse-sense to see that there is no chance for the capitalist to bring on better times. Just look at Mr. Hoover's prosperity and the Farm Board.

—A Worker.

Fakers Shoot Radical Words To Fool Jobless With A.F. of L.

BIRMINGHAM, Ala. —On Thursday night, July 30, there was a meeting in the city auditorium for the purpose of discussing unemployment and its causes and to effect a cure for it. Speakers were Congressman Geo. Huddleson, so-called progressive, and "friend of the working man," U. S. Commissioner Louise Charlton and another "liberal," Miss Mollie Dowd, of the League of Women Voters, and one of the A.F. of L. fakers, Mr. Gouge.

Why was it that Mr. Huddleson spoke about capitalism being to blame for the unemployment and starvation of the workers? Of course he said that the capitalist system of "individualism" (that is profits for the bosses and starvation for the workers) was not at fault, it was only abuse of the system. Why did he shoot off so many radical words and phrases about the workers should resist wage-cuts? The same goes for the other speakers.

The reason is because these capitalist politician fakers are getting scared of the fact that the workers and poor farmers are starting to get together under the leadership of the Communists and the Trade Union Unity League to organize and fight against the bosses attacks and to furthermore overthrow and do away with the present rotten system and set up a workers' and farmers' government like in Soviet Russia. The Congressman and his friends are getting right scared about the fact that right in Alabama the poor Negro and the white farmers are getting together to fight against starvation like in Camp Hill and also the workers in the coal fields and steel mills are waking up. What they are trying to do is to shoot off a lot of fake radical talk and thus be able to further mislead the workers and farmers from the path of revolutionary struggle to that of "waiting for better times."

All workers and farmers, white and Negro, must get together to expose these fake capitalist politicians. We must organize on the farms and in the shops and mines to fight for better conditions and for UNEMPLOYMENT INSURANCE for the unemployed. Now is the time to get start-

ed. Get going now under the lead of the Communist Party and Young Communist League. To hell with the honeyed words of the fakers. Only working class unity and fight will get us anywhere.

—A Young Worker.

Spy Snitches On Chatta. Workers Fighting Eviction

By a Worker Correspondent

Chattanooga, Tenn.

We are now engaged in an anti-eviction campaign here. The landlords are throwing unemployed workers on the street for not paying rent. We are battling a very tough landlord in the case of Walter Brazier, who lives at 1914 Garfield Ave.

The bosses, as usual have their stools and spies and bootlickers watching and snitching on us. One of the most dirty, active spies here is Richard Coates, who lives at 2001 Garfield Ave. This low-down snake spends all his time watching fellow-worker Brazier. Twice has the Negro landlady had Brazier set out of the house and twice have the workers set him back in the house. And twice in succession has this buzzard Coates let the officers know that the workers set the things back in the house.

This dog Coates has been attending meetings pretending to be in sympathy with the workers. He was very anxious to join the Communist Party in order to betray us. Fortunately we learned of this rat in time. All the workers will beware of him.

It is also known that he made his children join the Young Pioneers so that he could find out from them what was happening there. This pig-faced crocodile now has the effrontery to boast of what he has done. Richard Coates has a barbecue stand at his home at 2001 Garfield Ave. While making his living off the colored workers this rat is betraying them at every hand. See that the attention of all workers is called to his treachery. Let no one patronize him or go near his barbecue stand.

This rat works in company with the Judas, Dr. Stevens, of the Ministers' Alliance, to whom he reports everything he can find out. All workers will boycott both Coates and Stevens.

The workers should know that only by organizing and putting the furniture back can evictions be stopped. Stick together. Form neighborhood committees and show the landlords a solid front.

Shoots Starving Negro Child

SPARTANBURG, S. C. — Annie Brewton, 12-year-old Negro child, was shot in the legs and body by Landrum Chaptman, a white landowner, near here, when he found her picking blackberries on his property. The child was picking her family's next meal. Chaptman was arrested, but will probably be let off by the white boss court.

Deadly Disease Grips Ky. Striking Miners

(Continued from Front Page)

and urges workers everywhere to send more funds than ever now so that the plague can be checked in Kentucky without starving the other strike fields. Funds should be sent to the Central Relief Headquarters, in room 205, 611 Penn avenue, Pittsburgh, Penn.

Receiving Our Reward For Fighting In War

By an Ex-Soldier

Birmingham, Ala.

We went to the war to protect the bosses' money, to keep it in his pocket and out of ours. We were promised more rights. But just as soon as the boss began to feel safe, they began lynching and they have prepared a quicker and better way to kill the Negro and the poor white and that is the electric chair.

We suffered and died in the war, and now we are receiving our reward. Now what will we do about this? Just Organize and fight against the bosses' brutality.

Mill Pioneer Helps Dad Organize Union

Charlotte, N. C.

A woman who lives near us says my daddy is the one who organized the Leeksville Woolen Mill and tells everyone near us not to play with us as we are Reds. My father was the beginner of Leeksville strike and many other places and I hope he will live to see the ending of these hard times the workers are living under. I am going to do my best to help him out.

Will We Permit Third Winter of Starvation?

A third winter of mass unemployment and starvation faces millions of workers and poor farmers and their families. Even the boss press and the A. F. of L. fakers are forced to admit that unemployment is greater now than last year and will be still greater next winter. The big corporations, backed by the Hoover starvation government, are launching general wage-slashes on top of two years of wage-cutting, lay-offs and part time. Wage cuts are beginning for 250,000 workers in the U. S. Steel Corporation; wage-cuts for 1,200,000 railroad workers; unemployment for 75,000 Ford workers, pay-cuts for office workers—all along the line the bosses and the hunger regime at Washington are preparing winter graves for thousands of working-class people.

Afraid of what might happen this winter, with over 10,000,000 unemployed workers fighting for their right to live, the bosses and their politicians are beginning to try to stop the mass movement for relief and for unemployment insurance. Statements appear in the boss press by the Mayors, charity heads and A. F. of L. fakers promising some vague form of relief. They speak of again opening soup kitchens, extending city welfare work, public works and all the other fake plans that were used last winter to subdue the unemployed workers. Fakers like Rep. Huddleston of Alabama makes radical talks at an A. F. of L. meeting in Birmingham because he realizes that the workers are going to do something radical and he is trying to keep them from it by keeping them away from a mass fight for relief under cover of his radical phrases. The A. F. of L. is on the job, also trying to stop the mass movement for unemployment relief, which will reach great dimensions this winter under the leadership of the Communist Party and the Trade Union Unity League.

But this winter, soup kitchens, a few paltry charity pennies and chopping wood in the mayor's back yard are not going to fill the empty stomachs of 10,000,000 unemployed workers and their families. Right now, the workers realizing what a dark winter is before them, are beginning to fight against starvation.

If we are not to starve to death or freeze to a corpse this winter, the mass movement for relief must begin to grow now to take in millions of workers. We must build Unemployment Councils of the Trade Union Unity League in every city and set up branches of the Council in every part of the city to fight against evictions, for free rent, free water, free light, free gas for unemployed workers. We must fight for immediate cash relief from the city and the bosses and for unemployment insurance. We must support and actively participate in the big strike struggles against wage-cuts that are taking place now and will grow into a general strike movement.

Organize—white and black together! Fight starvation!

Negro Judases and A. F. of L. Fakers Join Hands With Boss Class

The lynch terror carried on against the Camp Hill croppers and their union by the landlords and police should open the eyes of both the Negro and white workers to the enemies standing within their midst. The landlords shot, drowned, lynched, arrested Negro croppers because they were organized into a Union to fight against starvation. What do some of our so-called friends say about it?

A few days after the news came of the events in Alabama, the leaders of the National Association for the Advancement of Colored People—the same one who are so bitterly fighting to break up the mass defense of the Scottsboro boys—issued a statement to the press. Did they protest this lynch terror against the Negro croppers in Alabama, demand punishment for those responsible for the murder of Ralph Gray, Buddy Davis, and other croppers? No! Instead they launched into a bitter attack against the Communists, leaders of the Share-Croppers' Union, and the croppers themselves. They blamed the Communists for the lynch terror! They called the croppers ignorant, not knowing what they were doing. They would much rather see them starve to death, rather than make any effort to keep off starvation and better their conditions. Just as in the Scottsboro case they took their side with the boss class of Alabama to send the boys to the electric chair, so in the Camp Hill struggle, they took their side with the boss class again to keep the croppers in starvation and oppression.

Immediately the lesser lights of the Negro upper class, the petty traitors and Judases, followed the example of the N.A.A.C.P. leaders. The Ministers' Alliance of Chattanooga, intensified its campaign of stool pigeoning and spying against the Negro workers holding protest and defense meetings in their homes; the guttersnipe Stevens of the Ministers' "Unholy" Alliance even went to the extent of causing the eviction of a militant worker in Chattanooga. Negro businessmen, doctors, and preachers of Birmingham issued a signed statement to the press calling upon the "ignorant" Negroes to stop following the leadership of the Communist Party and openly calling upon the police and the white boss class to "go after the real offenders and punish them to the real limit of the law."

And what about the A.F. of L., which is supposed to be Union and fighting for better conditions? The Labor Advocate, official organ of the Birmingham Trades Council, in a front page editorial showed exactly where these traitors stand. "Of course," it cries, "these Negroes (Camp Hill croppers) are guilty of breaking the law of the land." Mind you, readers, these labor officials say this about members of a Croppers Union who are fighting for better conditions. They blame the Union members for a boss attack. Since when is it "against the law" for workers to organize and fight for better conditions and protect themselves against the attacks of mobs and

Workers In Soviet Plant Give Reply To Scottsboro

By a Worker Correspondent
Stalingrad, U.S.S.R.

In Stalingrad is located the first tractor plant for mass production in the Soviet Union. The plant is equipped with the most modern machinery, almost every machine is made in America. In the factory there are 13,500 workers. The majority of them are young workers, or to be more concrete, about 10,000 of them are less than 30 years of age. Among the workers of this plant the frame-up of the nine Scottsboro boys has been one of the most discussed subjects during the last month, next to the question of the fulfillment of the five year plan in four years. In the departments protest meetings have been arranged, outdoor meetings have been held where thousands of workers have listened to reports on the frame-up. Articles about the case have been published in the factory press and speeches have been made over the radio.

The Answer

What is the answer that the Stalingrad workers have given to this attempt by the capitalist class in the U. S. A. to railroad these nine Negro boys to the electric chair?

The have given a splendid answer. They have recognized that this attack by the capitalists was not only an attack upon the Negro masses, but was an attack upon the American working class as a whole, for the purpose of weakening the resistance of the workers. They also see in this another link in chain of war preparations that the American imperialism at present is carrying on against the Soviet Union.

Know How It Was

The Russian workers know from the days of Czarism how the capitalist class tries to separate the workers into groups according to nationality and race, to be able to utilize this in its attack against the working class.

The Stalingrad workers have adopted protest resolutions, demanding the immediate and unconditional release of these nine working class victims of the capitalist terror. They have joined the International Labor Defense, individually and collectively. Whole departments with thousands of workers have answered by applying collectively for membership in the I.L.D. They have answered by strengthening the Communist Party of the Soviet Union. Furthermore, before the workers of Stalingrad stands the task of mastering technique, of fulfilling the five year plan in four years. Many of those that work in the factory have come from the villages

thugs? True to practise, the A.F. of L. fakers join the bosses in the attack on the workers, black and white. This sell-out, strike-breaking organization, is the bosses' friend. It helps the bosses lynch and massacre Negroes fighting against starvation, just as it helps the bosses break the strikes of the white and Negro workers and tries to prevent any mass movement for unemployment relief.

They stand exposed—the Negro Judases, joining hands with the A. F. of L. fakers and the boss class against the workers and poor farmers. Our fight against starvation, for the freedom of the Camp Hill croppers and the Scottsboro boys must sweep these fakers out of the way.

without any knowledge of machinery or technique. As a protest against the attack made by the American capitalist class they pledged themselves to become shock workers, to master technique, to eliminate scrap and increase the quality of the production, thereby guaranteeing that the five-year plan will be fulfilled. It is clear to the Stalingrad workers that if only they fulfill the five year plan will they build socialism and defeat the attempts by the Imperialists to start a war of intervention against the Soviet Union.

Honor Scottsboro Boys

The American workers, engineers and specialists working at the Stalingrad Tractor plant, have also joined in the protest against the attack upon the American working class. In the resolution in which they demand the immediate and unconditional release of the nine Negroes they also point out that they regard this as "a deliberate act to continue the division between the black and white workers in the U. A. S., in order that American capitalism may continue its brutal exploitation of the working class. Further, this murderous act of American imperialism is directed to stem the rising tide of struggle of the revolutionary movement and the Negro workers in particular, arising from the world economic crisis, in which American capitalism is deeply involved."

In the steel plant, the "Red October" which supplies steel for the Stalingrad Tractor Plant, a special shock brigade has been set up in the name of the Nine Scottsboro Boys.

Answer by Defending Soviet

This is the answer that the workers in Stalingrad gave as a protest against the legal lynching in Scottsboro. It is the answer they gave to the attack made upon the American working class as illustrated not only in the Scottsboro case, but shown in the general offensive and increased terror of American capitalism.

The workers in the U.S.A. must answer this splendid reply from the Russian workers by increasing its struggle against the war preparations, by rallying to the defense of the Soviet Union. The struggle for the right self-determination of the Negro masses must be intensified. The united front between the Negroes and white workers broadened so that the American proletariat will be victorious in its struggle against its enemy the capitalist class. Forward under the leadership of the Communist Party of the U. S. A. Forward to the establishment of the proletarian dictatorship!

Old Bill

Old Bill worked in the factory,
He had more work than he could do,
But they always found him on the job
When the whistle blew.

A union came into the country.
A-trying to organize.
But Bill didn't think their idea
Would be so very wise.

He just made enough to pay
His grocer bill and rent,
He had always been taught
To love the government.

Time rolled on,
And Bill worked every day,
He didn't seem to realize
His hair was turning gray.

The boss says: "Bill you are a good
worker,
You do the best you can.
But now, you are too old,
We need a younger man."

And Bill stood a-trembling
Upon his tired feet,
While the Boss got his little pay,
And put him on the street.

He went home to his family,
To whom he had always been true,
He says: "I have no job now,
Now, what are we going to do?"

Old Bill remembered the union
That tried to organize,
And he had told them the idea
Was not so very wise.

Now he is old and feeble,
They won't work him no more.
They always got his money
At the company store.

In the country Bill had loved,
He now had lost his pride;
He went into another room,
And committed suicide.

The mill preacher preached the funeral;
Here's the way he began:
"Old Bill had a hard time on earth,
But he got to heaven in the end."

I would like to tell you more,
But I haven't got the time.
Tell me in the paper
How you like this little rhyme.

More Armories For Alabama

But No Money for Jobless Relief

By a Worker Correspondent
Birmingham, Ala.

The bosses are preparing for war alright. On Friday, July 31, Gov. Miller of Alabama signed the Kelly bill, providing for building National Guard armories all over the state. This is being done so the bosses will be able to train more young workers to be cannon fodder in the coming war by getting them to join the National Guards.

While hundreds of workers and poor farmers are starving in Alabama the good governor doesn't do a thing for them. Workers and farmers are only meant for the bosses to make profits from or send to war. The Governor says there is no money for relief. But he sure finds plenty when it comes to building up armories and war plans. Fellow workers, we have got to get together and demand ALL FUNDS FOR WAR PREPARATIONS TO BE USED FOR THE BENEFIT OF UNEMPLOYED AND POOR FARMERS' RELIEF. Organize under the lead of the Communist Party.

—Young Worker.
